# Table of Contents

## Volume 9   Number 3                                    August  2021

**Mathematical Modeling of Shear Stress and Direct Shear Test for Compressible Soil: Case of Soil Bordering the Wouri River**

M. S. T. Ouagni, F. Ngapgue, F. Kenmogne, A. S. T. Kammogne, S. N. Koumi ........................................... 385

**Summary of Application of Fuzzy Mathematics in Construction Project Management**

D. Y. Tong, Y. M. Wang ................................................................................................................................. 407

**Logistics Management in the Ghanaian Construction Industry**

B. L. Appiah .................................................................................................................................................. 423

**Simplified Full Dynamic Analysis of a Railway Tunnel in Ethiopia**

H. F. Gebregziabher, T. Assefa .................................................................................................................. 444

**The Effect of Stem Diameter on the *Brassica napus* (Type: Canola) (Cultivar: HYHEAR 3) Fiber Quality**

A. Parvin, M. Rahman, D. J. Cattani .......................................................................................................... 458

**Bureaucratic Factors Impeding the Delivery of Infrastructure at the Metropolitan Municipal and District Assemblies (MMDAs) in Ghana**

J. K. Hackman, J. Ayarkwa, D. Osei-Asibey, A. Acheampong, P. A. Nkrumah ........................................... 482

**A Data-Driven Car-Following Model Based on the Random Forest**

H. L. Shi, T. L. Wang, F. S. Zhong, H. Q. Wang, J. Y. Han, X. Y. Wang ...................................................... 503

**Investigative Study on Emissions Level and Cost Analysis of Diesel Powered and Solar PV-Diesel Hybrid Systems**

O. O. Ajide, C. I. Eze, T. T. Olugasa, O. S. Ismail .................................................................................... 516

**SISDH: A Model Based on SMAs and SIRs for the Simulation of the Evolution of COVID-19 in Cameroon**

B. Bernabe, F. Esdras, E. Brown, K. Loïc, W. Stephane ............................................................................. 527

**Slope Instability at Nablus-Al Bathan Road, Palestinian Territories (Causes, Analysis and Remedy Measurements)**

I. Jardaneh, S. Hijjawi, G. Odeh .................................................................................................................. 538

**Preliminary Exploration on the Application of Saussure Sign Concept in Bio-Inspired Design: A Case of Tiantoushui Doll-Design**

Y. C. Yao, S. H. Wu, A. L. Wang .................................................................................................................. 548
Pressure Gradient Control Strategies Based on Disturbance Rejection for Typical Pharmaceutical Cleanrooms
C. W. Li, X. J. Ma, C.-E Huang

Asset Integrity Management in Mitigating Oil and Gas Pipeline Vandalism in the Niger Delta Region—Deep Burial Solution
A. E. Agomuoh, C. V. Ossia, F. O. Chukwuma

Research on the Integration of BIM Technology in Prefabricated Buildings
Y. G. Wang, Y. M. Wang

In-Line Inspection of Pipeline Defects Detection Using Ring-Type Laser
M. Durai, Y.-M. Hsu, H. Chang

The Combination of BIM Technology with the Whole Life Cycle of Green Building
L. L. Pu, Y. M. Wang

Risk Analysis of Cavitation in Hydraulic Structures
G. Echávez

Research on Risk Management of Cross-Sea Bridges Based on Analytic Hierarchy Process—Taking Hangzhou Bay Bridge as an Example
W. X. Zhang

Microstructures and Mechanical Properties of Al-Zn-Sn Bearing Alloys for High Performance Applications
N. A. Abdelhakim, R. M. Shalaby

The Detection of Inter-Turn Short Circuits in the Stator Windings of Sensorless Operating Induction Motors
J. B. Teguia, G. Kenne, A. T. S. Kammogne, G. C. Fouokeng, A. Nanfak

Analysing the Microstructures and Pin-on-Disc Wear Properties of 1010 Steel-Based and B,C-Added Materials Produced through Powder Metallurgy
M. Demirel, V. Koç

Comparative Analysis of Hybrid Controllers of Done Systems (UPFC) and Interphase Power Regulators Type RPI 30p15 on Contingency Management in Electrical Networks
K. K. Joseph, N. N. Léandre, N. E. Salomé, B. G. Jeannot
World Journal of Engineering and Technology (WJET)

Journal Information

SUBSCRIPTIONS

The World Journal of Engineering and Technology (Online at Scientific Research Publishing, https://www.scirp.org/) is published quarterly by Scientific Research Publishing, Inc., USA.

Subscription rates:
Print: $39 per issue.
To subscribe, please contact Journals Subscriptions Department, E-mail: sub@scirp.org

SERVICES

Reuse rights for individual papers:
Note: At SCIRP authors can choose between CC BY and CC BY-NC. Please consult each paper for its reuse rights.

Disclaimer of liability
Statements and opinions expressed in the articles and communications are those of the individual contributors and not the statements and opinion of Scientific Research Publishing, Inc. We assume no responsibility or liability for any damage or injury to persons or property arising out of the use of any materials, instructions, methods or ideas contained herein. We expressly disclaim any implied warranties of merchantability or fitness for a particular purpose. If expert assistance is required, the services of a competent professional person should be sought.

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: wjet@scirp.org
World Journal of Engineering and Technology (WJET) is an open access journal published quarterly. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various issues and developments in all aspects of engineering and technology.

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed in hard copy. The areas covered by World Journal of Engineering and Technology (WJET) include but are not limited to the following fields:

Aerospace Engineering and Technology
Architectural Engineering and Technology
Artificial Intelligence Technology
Automatic Speech Recognition Technology
Bioprocess Engineering
Chemical Technology
Civil Engineering
Composites Engineering
Control Engineering
Data Engineering
Ecological Science and Technology
Electrical and Computer Engineering
Engineering Education
Engineering Geology
Engineering Physics
Environmental Sciences
Food Science and Engineering
Genetic Engineering and Biotechnology
Green Energy Engineering and Technology
Hydraulic Engineering
Industrial Technology
Information Technology
Manufacturing Engineering and Technology
Materials Science and Engineering
Medical and Biomedical Engineering
Micro-System Technology
Military Technology and Equipment
Nano-System Technology
Naval Engineering
Nuclear Science and Technology
Opto-Mechatronics
Particle Physics
Petroleum Engineering
Pharmaceutical Engineering
Polymer Engineering
Reservoir Engineering
Security Engineering
Structural Engineering
Textile Engineering
Traffic Engineering
Visualization Technology

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

Website and E-Mail

What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
