Supplementary material A: Good Reporting of A Mixed Methods Study (GRAMMS)

| Component                                                                 | Section/Pages                  |
|----------------------------------------------------------------------------|--------------------------------|
| Describe the justification for using a mixed methods approach to the research question | Introduction page 5-6          |
| Describe the design in terms of the purpose, priority and sequence of methods | Methods (design page 6)         |
|                                                                            | Methods (data collection page 7-9) |
| Describe each method in terms of sampling, data collection and analysis    | Methods page 6-10               |
| Describe where integration has occurred, how it has occurred and who has participated in it | Methods page 6-10               |
| Describe any limitation of one method associated with the present of the other method | Discussion 31-32               |
| Describe any insights gained from mixing or integrating methods             | Discussion page 27-32           |
