Sarkar, Sujit
Josephson decoupling phase in inhomogeneous arrays of superconducting quantum dots.
(English) [Zbl 1260.81099]
Int. J. Mod. Phys. B 26, No. 19, Article ID 1250108, 8 p. (2012).

MSC:
81Q37 Quantum dots, waveguides, ratchets, etc.
81V65 Quantum dots as quasi particles
82D55 Statistical mechanics of superconductors
81V10 Electromagnetic interaction; quantum electrodynamics

Keywords:
Josephson decoupling phase; superconducting quantum dots and superconducting circuits

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
