Re: add authors of this article

I agree with the decision to add Xing Gu as the co-first authors of this article.

Our manuscript submitted to Oncogenesis 2020.4.29 (O C20-00288), and reviewers' comments returned on 2020.5.9. As a lot of experiments and modifications were done by Xing Gu during the revision, we decided to add Xing Gu as the co-first authors of this article. The decision is agreed by all authors of this work.
