**PARI LC SPRINT Family**
- Place all disassembled components in warm tap water with a little dish washing for 5 mins.
- Rinse all parts thoroughly in running water.
- A. boil in water for 5 mins - use a clean pot and fresh water with reduced calcium content.
- B. standard disinfectant for baby bottles - run time of at least 6 minutes.
- C. Microwave disinfectant - place the product components in the disinfectant with enough space between them to allow the steam to reach all surfaces reliably. 850-950W 4 mins 600-850W 6 mins plus 2 mins cooling time.
- D. Chemical Disinfection 2% solution of Bomix® plus and soak for 5 mins.
- If method A, B or C used, place on dry, clean, absorbent surface and let dry completely.

**eFlow® Rapid**
- Place in warm tap water with a little dish washing for 5 mins.
- Rinse under running tap water immediately after each use.

**VMT**
- Place in warm tap water with a little dish washing for 5 mins.
- Rinse under running tap water immediately after each use.

**OMRON MicroAir® Model NE-U22V**
- Nebulise a small amount of distilled water for 1-2 minutes.
- Rinse with distilled water after each use.

**Omron Healthcare Inc.**
- Nebulise a small amount of distilled water for 1-2 minutes.
- Rinse with distilled water after each use.

**MicroAir® Model NE-U22V**
- Nebulise a small amount of distilled water for 1-2 minutes.
- Rinse with distilled water after each use.

A. Thermal disinfectant with operating time of 6 minutes.
B. boil in distilled water for at least 5 minutes.
C. Chemical disinfection with quaternary ammonium compounds - suggested Bomix® plus (Bode) for 5 minutes.

**MicroAir® NE-U22V**
- Nebulise a small amount of distilled water for 1-2 minutes.
- Rinse with distilled water after each use.

- Make disinfecting solution of 1 part white vinegar, 3 parts distilled water or 2. mild detergent soap (dishwashing soap in distilled water).
- Nebulise a small amount of the solution for 1.5-3 minutes.
- Soak parts in the disinfecting solution for 10-15 minutes.
- A. gently wipe with a soft clean cloth.
- B. allow to air dry in a clean environment.
- C. Nebulise handset 1 year.
- Nebulisers head 3-6 months.
- Store in storage case or in clean environment. Do not use household bleach.
- Do not rinse in strong running water. Not suitable for microwave oven.
