**S1 Table.** Viability of the cultured cancer cells

| Cultured cancer cell | Cell viability (%) | Live cells/Total cells |
|----------------------|--------------------|------------------------|
| AMCBTC-01            | 100                | 17/17                  |
| AMCBTC-02            | 75                 | 3/4                    |
| AMCBTC-03            | 63.6               | 14/22                  |
| AMCBTC-04            | 100                | 2/2                    |
| AMCBTC-05            | 100                | 9/9                    |
