Description of Additional Supplementary Files

**File Name:** Supplementary Data 1  
**Description:** Description of the datasets used.

**File Name:** Supplementary Data 2  
**Description:** Harmonised data sets.

**File Name:** Supplementary Data 3  
**Description:** Univariable Mendelian Randomization results

**File Name:** Supplementary Data 4  
**Description:** Univariable Mendelian Randomization Egger's intercept

**File Name:** Supplementary Data 5  
**Description:** Multivariable Mendelian randomization results

**File Name:** Supplementary Data 6  
**Description:** Group specific Mendelian randomization results

**File Name:** Supplementary Data 7  
**Description:** NAFLD effect on T2D and CAD using p-value threshold of 5e-6 and LD clump of R2<0.001

**File Name:** Supplementary Data 8  
**Description:** NAFLD egger intercept on T2D and CAD using p-value threshold of 5e-6 and LD clump of R2<0.001

**File Name:** Supplementary Data 9  
**Description:** Instrument strength and heterogeneity statistics for univariable MR
