Figure S1

|          | Sham | TAC |
|----------|------|-----|
|          | NTG  | TG  | NTG | TG  |
| DUSP9    |      |     |     |     |
| GAPDH    |      |     |     |     |

- 42kDa
- 37kDa
Supplementary Figure legends:

Figure S1. Representative western blot results to validate DUSP9 expression in non-transgenic and transgenic mice at four weeks after sham or TAC surgery (n = 4 mice per group)
