Retraction

Retraction: Diversification of Physical Education Teaching Resources in Universities under the Background of Computer Information Technology (J. Phys.: Conf. Ser. 1992 042026)

Published 08 February 2023

This article has been retracted by IOP Publishing following an allegation that this article may contain nonsensical content [1].

IOP Publishing has investigated in line with the COPE guidelines and have found the article contains nonsensical sentences which has no significant relevance to the text and agree this article should be retracted [2].

The authors neither agree nor disagree to this retraction.
