Cape Town was formally established in 1652 as a supply depot for ships plying the trade routes from Europe to the Far East in search of silks and spices. The city today is still a major port, with a significant trade in fish and agricultural products, and the home of the Parliament of the Republic of South Africa. It has grown tremendously in recent years and now has a population of around 3.75 million, the second-largest city in the country. The city is dominated by the landmark of Table Mountain, so named because of its flat top, and this feature is shown in stylised form on the IFAC 2014 logo.

This will be the first IFAC World Congress to be held in Africa, and an outline of the continent forms the backdrop to the logo. Development of the waterfront complex around the former docks has transformed the city into one of the world’s premier tourist destinations; it retains its trade links to both East and West as well as North to Europe, and even South to Antarctica, by sea and, increasingly, by air.

The Cape Town International Convention Centre (CTICC) was opened in 2003 and can accommodate conferences of 12,000 delegates and more. We have booked out the whole of the centre to accommodate the many parallel streams representing the diverse interests of IFAC members. Part of the space will be used for a Process Exhibition, with stands showing the talents and products of many local and international vendors.

The South African IFAC NMO is the South African Council for Automation and Control (www.sacac.org.za), which has been active since 1961. Our 2007 bid to host the 2014 IFAC World Congress was supported by the South African Government, and we are pleased to confirm that we have now received substantial sponsorship from the Technology Innovation Agency, an initiative of the Department of Science and Technology, that aims to stimulate and develop technological innovation to improve economic growth and the quality of life of all South Africans.

The National Organising Committee has been very busy for many months, under the able leadership of Dr. Fernando Camisani, and most of the ingredients for a successful IFAC World Congress are now in place. Accommodation has been reserved in many hotels around the CTICC, negotiations are taking place for industrial and cultural visits and excursions, and the provision of catering services is being finalised.

The International Programme Committee has been convened under the joint chairmanship of Professors Xiaohua Xia and Ed Boje, from the universities of Pretoria and Cape Town respectively, and they have issued the First Call for Papers. Registration is now open and you are invited to join us for a memorable IFAC World Congress in Cape Town in 2014.

More information can be found on the IFAC 2014 website, which can be found at: www.ifac2014.org.

Written by Richard Roberts
South African Council for Automation and Control (SACAC)
Submitted by Ian Craig, President of IFAC
IFAC has a new treasurer. Longtime IFAC treasurer (2002-2013) Lino Guzzella resigned from his position as treasurer due to his increased responsibilities in his role of rector at ETHZ (Zurich, Switzerland.) He was officially replaced by the IFAC Council at their 2013 IFAC Council meeting in Zurich by John Lygeros, also of ETHZ.

Article 27a of the IFAC Constitution states that “Should any member of the Council other than the President or President-Elect, due to resignation, death or other cause, be prevented from fulfilling his/her duties, the Council may appoint someone to serve in his/her place until the next election.”

John Lygeros, the new treasurer of IFAC, grew up in Athens, Greece where he graduated from Athens College in 1987. He completed a B.Eng. degree in Electrical Engineering in 1990 and a M.Sc. degree in Systems Control in 1991, both at Imperial College of Science Technology and Medicine, London, U.K. In 1996 he obtained a Ph.D. degree from the Electrical Engineering and Computer Sciences Department, University of California, Berkeley, California, USA.

During the period 1996-2000 Lygeros held a series of research appointments at the National Automated Highway Systems Consortium, Berkeley, the Laboratory for Computer Science, M.I.T., and the Electrical Engineering and Computer Sciences Department at U.C. Berkeley. In parallel, he also worked as a part-time research engineer at SRI International, Menlo Park, California, and as a visiting professor at the Department of Mathematics of the Universite de Bretagne Occidentale, Brest, France. Between 2000 and 2003 he was a University Lecturer at the Department of Engineering, University of Cambridge, U.K., and a Fellow of Churchill College. Between 2003 and 2006 he was an assistant professor at the Department of Electrical and Computer Engineering, University of Patras, Greece.

In July 2006 Lygeros joined the Automatic Control Laboratory of ETH Zurich, first as an associate professor, and since January 2010 as a full professor of Computation and Control. Since January 2009 he is also serving as the head of the Automatic Control Laboratory. His research interests include modeling, analysis, and control of hierarchical, hybrid, and stochastic systems, with applications to biochemical networks, automated highway systems, air traffic management, power grids and camera networks. He is a Fellow of the IEEE, and a member of the IET and the Technical Chamber of Greece.

Biographical information submitted by John Lygeros, IFAC Treasurer

IFAC has a new treasurer. Longtime IFAC treasurer (2002-2013) Lino Guzzella resigned from his position as treasurer due to his increased responsibilities in his role of rector at ETHZ (Zurich, Switzerland.) He was officially replaced by the IFAC Council at their 2013 IFAC Council meeting in Zurich by John Lygeros, also of ETHZ.

The IFAC Council has selected 32 fellows (including three women) for the 2011-2014 triennium. The Call for Nominations was published in the October 2012 issue of this newsletter, as well as on the IFAC website. Prof. Sebastian Engell of Germany chaired the Fellow Selection Committee for this triennium. The Fellows are now awarded for an entire triennium instead of yearly nominations as in the past.

The committee studied the nominations and submitted their list of recommended Fellows to the IFAC Council, who approved the list at their meeting in Zurich, Switzerland on 19 July 2013.

In future Newsletters you will have a chance to learn more about the backgrounds of the IFAC Fellows.

Below is the list of IFAC Fellows for 2011-2014

BENVENISTE, Albert
BOKOR, Jozsef
BONVIN, Dominique
CHEN, Tongwen
De SOUZA, Carlos Emanuel
DOYLE, John C.
GHOSH, Bijor Kumar
HUANG, Lin
JIANG, Zhong-Ping
KHARGONEKAR, Pramod P.
LEONARD, Naomi E.
MACIEJOWSKI, Jan
MIDDLETON, Richard Hume
MITTER, Sanjoy
MORSE, A. Stephen
PAO, Lucy
PAPAGEORGIOU, Markos
PASIK-DUNCAN, Bozenna
PETERSEN, Ian R.
PRALY, Laurent
QIN, Zhizhao Joe
SABERI, Ali
SKOGSTAD, Sigurd
SONTAG, Eduardo
SPONG, Mark
SUN, Youxian
TERWIESCH, Peter
VERHAEGEN, Michel
WILLEMS, Jan C.
YAMAMOTO, Yutaka
ZHOU, Kemin
ZHOU, Mengchu

The IFAC Fellow Award consists of a certificate and a pin, which will be presented in person to the Fellows who are able to travel to the President’s Dinner in conjunction with the 19th IFAC World Congress in Cape Town, South Africa. Should a Fellow be unable to be in attendance the award will be presented to them at another suitable opportunity.
