**Supplementary Table 1.** Prevalence of Patterns of Tobacco Use, the Youth Appalachian Tobacco Study (n = 1116)

| Category                              | n    | %   | 95% LB | 95% UB |
|---------------------------------------|------|-----|--------|--------|
| Never use                             | 738  | 66.1| 63.3   | 68.9   |
| Former use                            | 181  | 16.2| 14.1   | 18.4   |
| Single use                            | 120  | 10.8| 8.9    | 12.6   |
| Cigarettes only                       | 35   | 3.1 | 2.1    | 4.2    |
| E-cigarettes only                     | 44   | 3.9 | 2.8    | 5.1    |
| Smokeless tobacco only                | 41   | 3.7 | 2.6    | 4.8    |
| Dual use                              | 50   | 4.5 | 3.3    | 5.7    |
| Cigarettes + e-cigarettes             | 21   | 1.9 | 1.1    | 2.7    |
| Cigarettes + smokeless tobacco        | 23   | 2.1 | 1.2    | 2.9    |
| E-cigarettes + smokeless tobacco      | 6    | 0.5 | 0.1    | 1.0    |
| Poly use (all three products)         | 27   | 2.4 | 1.5    | 3.3    |
| Multiple product use (dual + poly)    | 77   | 6.9 | 5.4    | 8.4    |
