| Topic                  | Item No | Checklist item description                                                                 | Reported on Page Number/Line Number | Reported on Section/Paragraph |
|------------------------|---------|-------------------------------------------------------------------------------------------|-----------------------------------|-----------------------------|
| **Title**              | 1       | The diagnosis or intervention of primary focus followed by the words “case report”          |                                   |                             |
| **Key Words**          | 2       | 2 to 5 key words that identify diagnoses or interventions in this case report, including "case report" |                                   |                             |
| **Abstract** (no references) | 3a      | Introduction: What is unique about this case and what does it add to the scientific literature? |                                   |                             |
|                        | 3b      | Main symptoms and/or important clinical findings                                            |                                   |                             |
|                        | 3c      | The main diagnoses, therapeutic interventions, and outcomes                                 |                                   |                             |
|                        | 3d      | Conclusion—What is the main “take-away” lesson(s) from this case?                          |                                   |                             |
| **Introduction**       | 4       | One or two paragraphs summarizing why this case is unique *(may include references)*        |                                   |                             |
| **Patient Information**| 5a      | De-identified patient specific information                                                  |                                   |                             |
|                        | 5b      | Primary concerns and symptoms of the patient                                                |                                   |                             |
|                        | 5c      | Medical, family, and psycho-social history including relevant genetic information           |                                   |                             |
|                        | 5d      | Relevant past interventions with outcomes                                                   |                                   |                             |
| **Clinical Findings**  | 6       | Describe significant physical examination (PE) and important clinical findings              |                                   |                             |
| **Timeline**           | 7       | Historical and current information from this episode of care organized as a timeline        |                                   |                             |
| **Diagnostic Assessment** | 8a  | Diagnostic testing (such as PE, laboratory testing, imaging, surveys).                      |                                   |                             |
|                        | 8b      | Diagnostic challenges (such as access to testing, financial, or cultural)                   |                                   |                             |
|                        | 8c      | Diagnosis (including other diagnoses considered)                                            |                                   |                             |
|                        | 8d      | Prognosis (such as staging in oncology) where applicable                                    |                                   |                             |
| **Therapeutic Intervention** | 9a | Types of therapeutic intervention (such as pharmacologic, surgical, preventive, self-care) |                                   |                             |
|                        | 9b      | Administration of therapeutic intervention (such as dosage, strength, duration)             |                                   |                             |
|                        | 9c      | Changes in therapeutic intervention (with rationale)                                       |                                   |                             |
| Follow-up and Outcomes | 10a | Clinician and patient-assessed outcomes (if available) |
|----------------------|-----|-------------------------------------------------------|
|                      | 10b | Important follow-up diagnostic and other test results |
|                      | 10c | Intervention adherence and tolerability (How was this assessed?) |
|                      | 10d | Adverse and unanticipated events |
| Discussion           | 11a | A scientific discussion of the strengths AND limitations associated with this case report |
|                      | 11b | Discussion of the relevant medical literature with references |
|                      | 11c | The scientific rationale for any conclusions (including assessment of possible causes) |
|                      | 11d | The primary “take-away” lessons of this case report (without references) in a one paragraph conclusion |
| Patient Perspective  | 12  | The patient should share their perspective in one to two paragraphs on the treatment(s) they received |
| Informed Consent     | 13  | Did the patient give informed consent? Please provide if requested | Yes | No |
