Wessles, Charlyn

*Drama.* Oxford: Oxford University Press, 1987 (Resource Books for Teachers series). 137 pp. £5.50.

This book presents first-hand practical advice on how to use drama in the ELT classroom to promote language acquisition; to improve coursebook presentation; to teach spoken communication skills; to teach literature; and for revision and reinforcement. Outside the classroom, the author offers ideas and guidelines for setting up a full-scale drama project, from initial improvisations to final performance.

Wright, Tony

*Roles of teachers and learners.* Oxford: Oxford University Press, 1987 (Language Teaching: A Scheme for Teacher Education series). xi + 164 pp. £5.95.

What are the roles of teachers and learners in classroom language learning? What social and psychological factors influence the way teachers and learners behave? How do these different roles affect the quality of language learning? What kinds of classroom activities best take advantage of the contributions of teachers and learners? How can cooperative learning be fostered by teaching materials? These are some of the questions raised in this book, for readers to explore through their own classroom practice.
