The index to Volume 58 contains a subject index and an author index.

In the subject index, items are listed under key words as found in the US National Library of Medicine’s Medical Subject Headings thesaurus.

In the author index, all contributing authors are listed alphabetically with the surname first and initial following. If an item has more than one author, the title is documented under the author name that appeared first when published in the CJHP. All other authors are listed referring to the name of the principal author, with the abbreviation “Jt Auth” indicating joint authorship.

Codes in parentheses before the page numbers indicate the nature of the item. Codes linked to page numbers with a hyphen indicate a supplement. The following codes are used in this volume:

A – Article
Abs – Abstract
AGM – Annual General Meeting supplement
BR – Book Review
CR – Case Report
DI – Drug Information Note
E – Editorial
EDR – Executive Director’s Report
L – Letter to the Editor
POR – Presidential Officer’s Report
PP – Pharmacy Practice
PPC – Professional Practice Conference supplement
SN – Society News

Assessment of the educational needs of community pharmacists who provide pharmaceutical care to renal transplant patients (Bhaloo and Fox) PPC-52
Automatic medication tracking: the use of unsafe abbreviations in a community hospital (Chang and Carver) PPC-49
Bortezomib (McLung) AGM-27
Canadian initiatives in patient safety (Rosenbloom and Salsman) PPC-31
Cardiac toxicity in oncology: Why and when (Hopkins) PPC-39
The cardiovascular safety of COX-2 inhibitors: What should we do now? (Shalansky) AGM-28
Cardiovascular secondary prevention drug benchmarks: Can we reach them? Yes we can! (Jorgensen) PPC-24
Challenges associated with heparin induced thrombocytopenia (Thomson) PPC-51
Challenges of the Special Access Programme (SAP)—A regulator and a hospital pharmacist’s perspectives (Garrah and Nisky) AGM-20
Ciprofloxacin: The impact of a pharmacist-managed dosage form conversion service at a major Canadian teaching hospital (Ho and others) PPC-54
Clinical outcome of gentamicin use on hearing in neonates (Lui and others) PPC-44
Clostridium difficile: New twists to an old story? (Thirion) PPC-53
A comparison of the incidence of urgent percutaneous coronary intervention in patients receiving alteplase or tenecteplase following acute ST-segment elevation myocardial infarction (Sweeney and others) PPC-59
Complete care of patients with diabetes (Jorgenson) AGM-22
Complete switch to darbepoetin in a hemodialysis unit (Shalansky and Jastrzebski) 44
Complex coagulopathy case: DVT, PE, CVA, GI bleed, etc.! (Leong) PPC-42
Computerized discharge prescriptions: A retrospective survey (Vailauncourt and others) AGM-52, PPC-46
COPD and isotropane use (Jackson) PPC-40
Cost-effectiveness of patient self-managed vs. physician-managed oral anticoagulation: A Bayesian approach (Sunderji and others) AGM-51
Critical appraisal of the literature involving a pharmacist intervention in diabetically patients (Lask and Dolovich) PPC-59
Current trends in the management of ventilator-associated pneumonia (Yamashita) PPC-29
Development and evaluation of antimicrobial intervention programs: A practical approach (Guggielmo) PPC-37
Development of an educational video for patients with heart failure—The Congestive Heart Failure Outreach Program of Education (COPE) Study (Tsuyuki and others) 45
Development of a pharmacy seamless care strategy and tool for chronic renal failure patients (Gesta and others) 43, PPC-49
Development of the family medicine medication use processes matrix (Farrell and others) AGM-54
Diclofenac-induced hepatitis—A case report (Sung and others) PPC-55
Different modes of dialysis—The impact of drug therapy (Perks and MacCallum) PPC-26
Drotrecogin alfa (activated) for the treatment of severe sepsis: Prcs together the ENHANCE study (Kanji) AGM-19
Drugs are technologies too: An overview of health technology assessment of health technology assessment at the Canadian Coordinating Office for Health Technology Assessment (CCOHTA) (Husereau) AGM-21
A duty to warn (Greenslain and Hyland) PPC-59
Effects of switching patients from Coumadin® to a generic warfarin product (Campbell and others) PPC-44, 44
E-health and disease state management (Rasmussen) PPC-54
Emerging and pandemic infectious diseases—Should we be concerned? (Simon) PPC-52
Enteral feeding the adult—The art and the science (Greenwood) PPC-28
Equality, clinical leadership and competence in the workplace (Choudhury) PPC-34
