collection date
The chart shows the distribution of data across different collection dates and months from 2015 to 2021. The x-axis represents the collection date month, while the y-axis shows the percentage of data. The data peaks in 2020-12 with 24%, followed by 2020-11 with 14%, and 2020-10 with 13%. The lowest percentage is in 2015-12, 2016-01, and 2016-02, all with 0%.
