### Supplemental Table 3. List of Wnt target genes from Nusse Lab.

| Mouse Gene Symbol | Human Gene Symbol |
|-------------------|------------------|
| Myc               | MYC              |
| Ccnd1             | CCND1            |
| Tcf7              | TCF7             |
| Lef1              | LEF1             |
| Ppard             | PPARD            |
| Jun               | JUN              |
| Fosl1             | FOSL1            |
| Plaur             | PLAUR            |
| Mmp7              | MMP7             |
| Axin2             | AXIN2            |
| Nrcam             | NRCAM            |
| Tcf4              | TCF4             |
| Gast              | GAST             |
| Cd44              | CD44             |
| Efnb1             | EFN1             |
| Cldn1             | CLDN1            |
| Birc5             | BIRC5            |
| Vegfa             | VEGFA            |
| Fgf18             | FGF18            |
| Atoh1             | ATOH1            |
| Met               | MET              |
| Edn1              | EDN1             |
| Mycbp             | MYCBP            |
| L1cam             | L1CAM            |
| Id2               | ID2              |
| Jag1              | JAG1             |
| Tiam1             | TIAM1            |
| Dkk1              | DKK1             |
| Fgf9              | FGF9             |
| Fgf20             | FGF20            |
| Lgr5              | LGR5             |
| Sox17             | SOX17            |
| Pttg1             | PTTG1            |
| Fzd7              | FZD7             |
| Fst               | FST              |
| En2               | EN2              |
| Gja1              | GJA1             |
| Stra6             | STRA6            |
| Rhou              | RHOU             |
| Twist1            | TWIST1           |
| Tcf20             | TCF20            |
| Ccn4              | CCN4             |
| Cdx4              | CDX4             |
| Sfrp2             | SFRP2            |
| Egfr              | EGFR             |
| Ctl4              | CTLA4            |
| Vcan              | VCAN             |
| Tnfrsf19          | TNFRSF19         |
