File list (files found within DataS1.zip)

S2-1-NePoFarm.R
S2-2-Input.txt

Description

S2-1-NePoFarm.R – R-script implementing the landscape generator “NePoFarm”. A documentation of this script is provided in Appendix S1: Section S4.

S2-2-Input.txt – NePoFarm requires as input raster data of all agricultural fields in two landscapes in England (see Appendix S1: Section S4).
