APPENDIX:

**Figure A1** – Segond fracture on coronal radiograph

**Figure A2** – “Healed Segond” on coronal radiograph

**Figure A3** – Healing of identified Segond fractures

| Segond fracture at time of injury | Evident Segond preoperatively | Healed Segond fracture preoperative |
|-----------------------------------|-------------------------------|-------------------------------------|
| Non-healing                       | Healing response              | P-value                             |
| Months from injury to surgery     | 4.9 (4.6)                     | 19.8 (24)                           | 0.052 (N.s.)             |

*Mean (SD)*
