**Figure S2.** Amplified fragment length polymorphism amplification and analysis of the molecular marker. M: DNA marker; 1–10: Taishan 1, Chinese Spring, Bima 4, Longfumai 18, Yanfu 188, Ning 9940, Xinong 6028, Longmai 26, Jinmai 47, Zhongmai 9. All populations were tested, and only partial results are shown in the figure.
