Academic Appointments

08/21–present
Associate Professor, University of Maryland, College Park, Department of Mathematics.
- Additional Affiliation in the Applied Mathematics and Scientific Computation Program (AMSC), University of Maryland, College Park, 12/19–present

08/19–08/21
Assistant Professor, University of Maryland, College Park, Department of Mathematics.

09/17–08/19
Assistant Professor, University of Massachusetts, Amherst, Department of Mathematics and Statistics.

08/14–08/17
Senior Research Scientist, Johns Hopkins University, The Human Language Technology Center of Excellence.

08/14–08/20
Assistant Research Professor, Johns Hopkins University, Department of Applied Mathematics and Statistics.

01/13–08/14
Postdoctoral Fellow, Johns Hopkins University, Department of Applied Mathematics and Statistics (supervisor: Prof. Carey E. Priebe).

Other Employment

Summer 2012
Graduate Advisor, East Tennessee State University Research Experience for Undergraduates (REU) under Prof. Anant Godbole.

Educational Background

05/13
Ph.D., Johns Hopkins University, Applied Mathematics and Statistics.
Advisor: Prof. James Allen Fill
Dissertation title: Intertwinings, Interlacing Eigenvalues, and Strong Stationary Duality for Diffusions

12/11
M.S.E., Johns Hopkins University, Applied Mathematics and Statistics.

05/07
M.A., Johns Hopkins University, Mathematics.

05/06
B.S., University of Notre Dame, Mathematics, Magna Cum Laude.
Studied abroad via the Budapest Semesters in Mathematics, Spring 2005 semester.

Professional Society Memberships

Member: ASA, IMS, Phi Beta Kappa

Research Publications

Students advised or co-advised are underlined; Postdocs mentored indicated with *.
Refereed Journal Publications

2023.

Conferences, Workshops, Seminars, and Invited Talks

Lost in the Shuffle: Testing Power in the Presence of Errorful Network Vertex Labels
- Invited talk in the AMS Seminar at Johns Hopkins University, Department of Applied Mathematics & Statistics; 3/16/23
- Invited talk in an organized invited session (entitled “EO712: Advances in multiple network data analysis”) at the 15th International Conference of the ERCIM WG on Computational and Methodological Statistics (CMStatistics 2022); 12/17/22–12/19/22

**Clustered Graph Matching for Label Recovery and Graph Classification**
- Invited talk at invited session (entitled IS-17: Statistical Inference for and with Network Data) at New England Statistics Symposium (NESS), May 22 - 25, 2022

**Maximum Likelihood Estimation and Graph Matching in Errorfully Observed Networks**
- Invited talk at Joint Mathematics Meetings in AMS Special Session on Transient Probabilities of Random Processes, Duality Theory and Gambler’s Ruin Probabilities. Originally scheduled for Jan 2022, moved to April 2022 due to COVID

**Multiplex graph matching matched filters**
- Talk at workshop: Complex Networks: Analysis, Numerics, and Applications (workshop at UMD I co-organized with Radu Balan, Maria Cameron, and Wojciech Czaja). February 18-19, 2022
- Workshop presentation at GTA3.0: The 3rd Workshop on Graph Techniques for Adversarial Activity Analytics, in conjunction with In Conjunction with the 2019 IEEE Big Data Conference. December, 2019

**The Importance of Being Correlated: Implications of Dependence in Joint Spectral Inference across Multiple Networks**
- Invited talk in CMAI Colloquium at George Mason University; 2/11/22
- Invited talk in an organized invited session (entitled “EO342: Recent developments in statistical network analysis”) at the 14th International Conference of the ERCIM WG on Computational and Methodological Statistics (CMStatistics 2021); 12/18/21–12/20/21
- Invited talk in the STAT seminar, University of Maryland, College Park; 9/9/21
- Invited talk in the AMS Seminar at Johns Hopkins University, Department of Applied Mathematics & Statistics; 10/29/20
- Invited talk in the 2020 Tufts Computational and Applied Math Seminar; 9/28/20
- Invited talk in the STAT seminar, University of Delaware; 9/25/20

**Graph Matching Matched Filters on Richly Featured Networks**
- Invited talk, Graph Analytics Tutorial at the JHU HLTCOE, 8/26/2021

**Some (broad and specific) recent graph matching developments**
- Invited guest lecture in Professor Minh Tang’s graduate topics course on “Statistical Inference on Graphs” at NCSU, 11/12/2020

**Vertex Nomination, Consistent Estimation, and Adversarial Modification**
- Invited talk at the IMA workshop on Theory and Algorithms of Graph-based Learning taking place September 14-18, 2020
- Invited talk at the UMD Norbert Weiner Center for Harmonic Analysis and Applications. October, 2019
- Invited talk at Deb Roy’s lab meeting at MIT Media Lab/Cortico. April, 2019

**Matchability of Heterogeneous Networks Pairs**

- Invited talk at NIST, January 8, 2020
- Invited talk in the UMD Statistics Seminar series. September, 2019
- Invited session on New Advances in Network Data Analysis at the 2019 New England Statistics Symposium. May, 2019

**Consistency in vertex nomination**

- Invited session on Exploiting Latent Structure for Network Inference at the 2019 Joint Statistics Meetings. July–August, 2019

**Graph matching in edge-independent networks**

- Invited speaker, University of North Carolina, Chapel Hill, STOR Colloquium. January 18, 2019
- Invited speaker, Boston University Department of Mathematics and Statistics, Statistics and Probability Seminar Series. October 11th, 2018.

**Consistent vertex nomination**

- Invited speaker, University of Maryland Department of Mathematics Colloquium. January 11, 2018

**Graph Matching and Graph Matchability in Edge-Independent Networks**

- Invited session on Graphs: Inference and Mining at the 56th Annual Allerton Conference on Communication, Control, and Computing. October, 2018.

**Graph matching and network inference in biological applications**

- Invited speaker, Yale University Department of Biostatistics Seminar. September, 2018.

**Graph Matching and Subsequent Inference in Errorfully Observed Network Data**

- Invited session on Recent Advances in Multiple Graph Inference at the 2018 Joint Statistics Meeting. July–August, 2018.

**On consistent vertex nomination schemes**

- Invited speaker, University of Massachusetts, Amherst, Department of Mathematics and Statistics, Applied Mathematics and Computation Seminar. April, 2018
- Invited speaker, Five College Statistics and Data Science Research Bytes. February, 2018
- Invited speaker, Boston University, Department of Mathematics and Statistics, Statistics and Probability Seminar Series. November, 2017

**Information Recovery in Errorfully Labeled Graphs via Graph Matching**

- Invited speaker, UConn/UMass Statistics Colloquium. April, 2018
- Invited speaker, Duke University, Department of Statistical Science Seminar. September, 2017
- Invited speaker, University of Florida, Department of Statistics Seminar. January, 2017
- Invited speaker, University of Maryland, Department of Mathematics Colloquium. January, 2017
- Invited speaker, University of Massachusetts, Amherst, Department of Mathematics and Statistics Colloquium. December, 2016
- Invited speaker, University of Houston, Department of Mathematics Seminar. December, 2016
- Invited seminar, Issac Newton Institute for Mathematical Sciences. November, 2016
- Invited Session on Advances and Novel Problems in Network Statistics at the 2016 Joint Statistics Meeting. July–August, 2016

**Network Matched Filters**
- Invited session on Scan Statistics in Networks and Graphs at the 2017 Joint Statistics Meeting. July–August, 2017

**Recent theoretic and algorithmic advances in graph matching**
- Invited speaker, JHU Department of Applied Mathematics and Statistics Seminar. February, 2016

**Community Detection and Classification in Hierarchical Stochastic Blockmodels**
- Invited speaker, Session on Statistical Inference for High-Dimensional Data, International Society for Nonparametric Statistics Meeting. July, 2015

**The Cortical Column Conjecture and Related Connectomic Problems**
- Invited guest lecture, Statistical Learning from Omics Data at SAMSI. April, 2015

**Spectral Clustering for Divide-and-Conquer Graph Matching**
- Invited speaker, Virginia Commonwealth University Special VCU Statistics and Discrete Mathematics Seminar Series. February, 2015

**(Robust) Seeded Graph Matching**
- Regular contributed paper, 2014 Joint Statistics Meetings. August, 2014

**Seeded Graph Matching**
- Contributing speaker, 14th Haifa Workshop on Graph Theory, Combinatorics, and Algorithms. June, 2014
- Invited speaker, Johns Hopkins HLTCOE Seminar Series. February, 2013
- Invited speaker, George Mason University Department of Statistics Seminar. January, 2013
- Johns Hopkins University Department of Applied Mathematics and Statistics Student Seminar Series. February, 2013

**Seeded Graph Matching and Applications**
- Invited speaker, George Mason University SPACS/CCDS/Statistics Colloquium Series. March, 2013

**Large Graph Matching with Applications to Brain Networks**
- Invited by Guillermo Sapiro to give seminar at the Information Initiative at Duke University. October, 2013
Strong Stationary Duality for Diffusion Processes
- Invited speaker, Session on Markov Chains and Markov Decision Problems at INFORMS Applied Probability Society Conference. July, 2013
- Invited speaker, Session on Computational and Discrete Mathematics at the Canadian Applied and Industrial Mathematics Society Conference. June 2012

Sharp Threshold Asymptotics for the Emergence of Additive Bases
- Regular contributed paper, AMS Session on Probability Theory, Stochastic Processes and Statistics at the Joint Mathematics Meeting. January, 2012
- Johns Hopkins University Department of Applied Mathematics and Statistics Student Seminar Series. October, 2011

Multivariate Records
- Invited speaker, George Washington University Department of Statistics Student Seminar Series. October, 2010
- Johns Hopkins University Department of Applied Mathematics and Statistics Student Seminar Series. October, 2010

A Stochastic Interpretation of a Hitting Time Result of Mark Brown
- Johns Hopkins University Department of Applied Mathematics and Statistics Student Seminar Series. April, 2010

The Comparison Method for the Relaxation Time of Ergodic Markov Chains
- Contributed talk, Fields–MITACS Summer School in Applied Probability. May 2009
- Johns Hopkins University Department of Applied Mathematics and Statistics Student Seminar Series. March, 2009

Posters Presented
Core Detection: Sifting Through The Junk in Graph Matching
- Poster presented at 2017 SIAM Workshop on Network Science, July 2017

Recent theoretic and algorithmic advances in graph matching
- Poster presentation and flash talk, The 2016 IMS New Researchers’ Conference. July, 2016

Seeded Graph Matching
- Poster presented at Duke Workshop on Sensing and Analysis of High Dimension Data, July 2013

Sponsored Research and Programs
Active awards
2020-2023 Center of Excellence in Human Language Technology.
- Funding Source: JHU HLTCOE sub-award to UMD
- Role: Investigator
- Total award amount: $297,018 (DO05 2020-2021); $300,594 (DO06 2021-2022); $146,605 (DO07; my effort funded under Task NLU portion of award 2022-2023; total award amount with all tasks $313,170); $223,365 ((pending) total amount for all tasks; DO08 2023-2024)
- PI at UMD: Douglas Oard, UMIACS

**2020–2023**
**Algorithmic Primitives for Aligning and Merging Complex Networks.**
- Funding Source: Defense Advanced Research Projects Agency, I2O Open Office (for the Modeling Adversarial Activity program)
- Role: Principal Investigator
- Total award amount: $1,320,646.00 ($999,146 award with $321,500 mod)
- Subcontract PIs Carey E. Priebe and Youngser Park (JHU) and Daniel Sussman (Boston University)
- Award extension through July 2023

**Completed Awards**

**2018–2022**
**A 5-dimensional connectomic approach to the neural basis of behavior.**
- Funding Source: NIH Brain Initiative: Exploratory Team-Research BRAIN Circuit Programs eTeamBCP
- Role: co-PI
- Total award amount: $3,754,785
- PI: Paul Katz at UMass; Subcontract PIs Jeff Lichtman (Harvard University), William Frost (Rosalind Franklin University), and Deirdre Lyons (University of California, San Diego)
- Award extension through August 2022

**2017–2021**
**What Would Tukey Do?**
- Funding Source: Defense Advanced Research Projects Agency, Data-Driven Discovery of Models program
- Role: co-PI (at JHU)
- Total award amount: $2.2M
- PI: Carey Priebe at JHU; co-PIs Minh Tang, Avanti Athreya, Youngser Park and Joshua T. Vogelstein

**2017–2019**
**Universally Useful Primitives for Aligning Networks Across Time and Space.**
- Funding Source: Defense Advanced Research Projects Agency, I2O Open Office (for the Modeling Adversarial Activity program)
- Role: Principal Investigator (at UMass)
- Total award amount: $1,004,433
- Subcontract PIs Carey E. Priebe and Youngser Park (JHU) and Daniel Sussman (Boston University)
- No cost extension awarded through January 2020
Research Fellowships, Prizes and Awards

2012 Graduate Student Travel Grant to the Joint Mathematics Meetings, Boston MA, January 4–7

2009–2012 GAANN Fellowship, U.S. Department of Education awarded through the Department of Applied Mathematics and Statistics, The Johns Hopkins University

2008–2012 Counselman Endowed Fellowship, awarded by the Department of Applied Mathematics and Statistics, The Johns Hopkins University; Awarded in 2nd year of Ph.D. (2008) with continued award funding through AY 2011-12

2008 Naddor Teaching Fellowship, awarded by the Department of Applied Mathematics and Statistics, The Johns Hopkins University

2007 Naddor Teaching Fellowship, awarded by the Department of Applied Mathematics and Statistics, The Johns Hopkins University

2007 Rufus P. Isaacs Graduate Fellowship, awarded by the Department of Applied Mathematics and Statistics, The Johns Hopkins University

2006 The Haaser Scholarship in Mathematics (awarded for excellence in mathematics), awarded by the Department of Mathematics, University of Notre Dame

2006 Senior GE Prize for Mathematics Majors (awarded for excellence in mathematics), awarded by the Department of Mathematics, University of Notre Dame

Teaching

Courses Taught

Spring 2023 STAT650: Applied Stochastic Processes.
University of Maryland, College Park

Spring 2023 STAT426: Introduction to Data Science and Machine Learning.
University of Maryland, College Park

Fall 2022 STAT426: Introduction to Data Science and Machine Learning.
University of Maryland, College Park; 17 students

Fall 2022 DATA607: Communication in Data Science and Analytics.
University of Maryland, College Park; part of Data Science & Analytics Master’s Degree Program; 29 students

Spring 2022 STAT426: Introduction to Data Science and Machine Learning.
University of Maryland, College Park; 27 students

Spring 2022 STAT650: Applied Stochastic Processes.
University of Maryland, College Park; 17 students

Fall 2021 STAT426: Introduction to Data Science and Machine Learning.
University of Maryland, College Park; 33 students

Fall 2021 DATA607: Communication in Data Science and Analytics.
University of Maryland, College Park; part of Data Science & Analytics Master’s Degree Program; 26 students

Spring 2021 STAT650: Applied Stochastic Processes.
University of Maryland, College Park; 27 students

Winter DATA607: Communication in Data Science and Analytics.

2020/2021 University of Maryland, College Park; part of Data Science & Analytics Master’s Degree Program; 4 students
Fall 2020  **STAT705: Computational Statistics.**  
University of Maryland, College Park; 20 students

Spring 2020  **STAT426: Introduction to Data Science and Machine Learning.**  
University of Maryland, College Park; 26 students, pilot course (now permanent)

Spring 2020  **STAT689: RIT in Statistical Network Inference.**  
University of Maryland, College Park; 8 students enrolled and numerous faculty sat in

Fall 2019  **STAT426: Introduction to Data Science and Machine Learning.**  
University of Maryland, College Park; 23 students, pilot course (now permanent)

Spring 2019  **STAT 516: Statistics II.**  
University of Massachusetts, Amherst; 41 students

Spring 2019  **STAT 496: Independent Study.**  
University of Massachusetts, Amherst; undergraduate independent study with 1 student

Fall 2018  **STAT 697S: ST Statistical Network Inference.**  
University of Massachusetts, Amherst; Graduate level topics course, 8 students

Spring 2018  **STAT 516: Statistics II.**  
University of Massachusetts, Amherst; 2 sections with 22 and 35 students respectively

Spring 2018  **Math 596: Independent Study.**  
University of Massachusetts, Amherst; undergraduate independent study with 1 student

Fall 2016  **550.621: Probability Theory II.**  
Johns Hopkins University; graduate level, 7 students

Fall 2015  **550.620: Probability Theory I.**  
Johns Hopkins University; graduate level, 22 students

Spring 2014  **550.771: The Probabilistic Method.**  
Johns Hopkins University; graduate level topics course, 9 students

Fall 2013  **550.310: Probability and Statistics for the Physical and Information Sciences and Engineering.**  
Johns Hopkins University; 76 students

Summer 2013  **550.111: Statistical Analysis I.**  
Johns Hopkins University; 18 students

Spring 2013  **550.111: Statistical Analysis I.**  
Johns Hopkins University; 152 students

Fall 2012  **550.310: Probability and Statistics for the Physical and Information Sciences and Engineering.**  
Johns Hopkins University; 72 students

Summer 2012  **550.230: Introduction to Biostatistics.**  
Johns Hopkins University; 6 students

Fall 2011  **550.310: Probability and Statistics for the Physical and Information Sciences and Engineering.**  
Johns Hopkins University; 73 students

Summer 2011  **550.230: Introduction to Biostatistics.**  
Johns Hopkins University; 8 students
Spring 2011  **550.310: Probability and Statistics for the Physical and Information Sciences and Engineering.**
Johns Hopkins University; 41 students

Spring 2010 **550.310: Probability and Statistics for the Physical and Information Sciences and Engineering.**
Johns Hopkins University; 85 students

Summer 2009 **550.171: Discrete Mathematics.**
Johns Hopkins University; 6 students

Summer 2008 **550.111: Statistical Analysis I.**
Johns Hopkins University; 20 students

---

**Mentoring and Advising**

**UMD**  
Postdoc advising  
- Jesus Arroyo AY 2020-2021 (Funded entirely by DARPA MAA award); Currently Tenure-track Assistant Professor, Department of Statistics, Texas A&M University

**UMD**  
Ph.D. student advising  
- Al-Fahad Al-Qadhi; Doctoral Candidate, AMSC  
- Zhirui Li; Doctoral Candidate, AMSC  
- Sheyda Peyman; Doctoral Candidate, AMSC  
- Tong Qi; Doctoral Candidate, STAT  
- Ayushi Saxena; Doctoral Candidate, Statistics

**UMD**  
Ph.D. thesis advisor for Konstantinos Pantazis, Department of Mathematics, University of Maryland, College Park  
- Graduated with Ph.D. May 2022  
- Dissertation: Statistical Inference across Multiple Graphs: Advancements in Multiplex Graph Matching and Joint Spectral Graph Embeddings  
- Internship at MSR summer 2022, Postdoc at JHU AY 2022-2023

**UMD**  
Ph.D. thesis advisor for Jesse Milzman (co-advised with Prof. Doron Levy (primary)), Department of Mathematics, University of Maryland, College Park  
- Graduated with Ph.D. Summer 2021  
- Dissertation: Dynamics, Networks, and Information: Methods for Nonlinear Interactions in Biological Systems  
- Currently at ARL

**JHU**  
Ph.D. thesis advisor for Heather Gaddy Patsolic (co-advised with Carey E. Priebe), Department of Applied Mathematics and Statistics, Johns Hopkins University  
- Graduated with Ph.D. Spring 2020  
- Dissertation: Graph Matching and Vertex Nomination  
- Now with Accenture Federal Services

**JHU**  
Ph.D. thesis advisor for Keith Levin (co-advised with Carey E. Priebe and Ben Van Durme), Department of Computer Science, Johns Hopkins University  
- Graduated with Ph.D. Spring 2017
- Dissertation: Graph Inference with Applications to Low-Resource Audio Search and Indexing
- Postdoc, JHU (2017); Postdoc, University of Michigan, Department of Statistics (2017-2020); Tenure-Track Assistant Professor, University of Wisconsin Madison, Department of Statistics (2020-present)

Service and Outreach

Reviewing Activities

Panel reviews.
- Proposal reviewer as part of the DOE Early Career Research Program Scientific Machine Learning Review Panel, 2021

Reviewed papers for the following journals/conferences:
- Algorithms
- Annales de l’institut Henri Poincare (Prob. and Stat.)
- Annals of Applied Probability
- Annals of Probability
- Annals of Statistics
- Applied Network Science
- Canadian Journal of Statistics
- Combinatorics, Probability, and Computing
- Computational and Applied Mathematics
- Electronic Journal of Probability
- ESAIM: Probability and Statistics
- ICLR 2021
- IEEE Journal on Selected Areas in Information Theory
- IEEE Transactions on Information Theory
- IEEE Transactions on Knowledge and Data Engineering
- IEEE Transactions on Medical Imaging
- IEEE Transactions on Network Science and Engineering
- IEEE Transactions on Neural Networks and Learning Systems
- IEEE Transactions on Pattern Analysis and Machine Intelligence
- Involve, a Mathematics Journal
- Journal of the American Statistical Association
- Journal of the Royal Statistical Society: Series B
- Markov Processes and Related Fields
- Networks and Heterogeneous Media
- NeurIPS 2019
- Neuroimage
- Parallel Computing
- Pattern Recognition Letters
- Probability in the Engineering and Informational Sciences
- Proceedings of the National Academy of Sciences
- Random Structures and Algorithms
- SIAM Journal on Mathematics of Data Science
- Statistics and Computing
- Theory of Computing System

Committees, Professional & Campus Service

2019 – University of Maryland, College Park.

Departmental Service.
- Member, Mathematics Department hiring committee, AY 2022-2023
- Member, AMSC Graduate Committee, AY 2022-2023
- Member, AMSC graduate admissions committee, AY 2019-20, AY 2020-2021, AY 2021-2022, and AY 2022-2023
- Organizing committee, Norbert Wiener Center for Harmonic Analysis and Applications Faraway Fourier Talks (FFT), AY 2020-2021 and 2021-2022
- Member, Mathematics Department Postdoc search committee, AY 2020-2021 and 2021-2022
- Member, Mathematics Department Policy Committee, AY 2021-2022
- Math Ambassador for Virtual Visiting Day, 3/10/21; 3/15/2022
- AMSC Ambassador for Virtual Visiting Day, 3/10/21
- Organizer, Mathematics Department Statistics Seminar, AY 2019-20 and AY 2020-21
- Member, Mathematics Department committee set up to help with technical aspects of the transition to remote teaching, Spring 2020
- Member, AMSC Scientific Computing track reform committee, Fall 2019
- Member of the Ph.D. Final Oral Exam Committee (i.e., Thesis Defense) for
  — Andrew Lauziere (10/2022)
  — Chris Dock (04/2022)
  — Konstantinos Pantazis (04/2022)
  — Liam Fowl (03/2022)
  — Gustavo Varela Alvarenga (08/2021)
  — Qiong Wu (06/2021)
  — Catherine Schwartz (06/2021)
  — Lingyao Meng (at JHU) (06/2021)
  — Jesse Milzman (05/2021)
- Member of the MSc. Master’s Thesis Defense committee for
  — Philip Casey (04/2022)
- Member of the Ph.D. Preliminary Oral Exam Committee for
— Al-Fahad Al-Qadhi (11/2022)
— Zhirui Li (11/2022)
— Haeyun Seo (09/2022)
— Canran Ji (08/2022)
— Phillip Koshute (05/2022)
— Tong Qi (05/2022)
— Efstratios Tsoukanis (02/2022)
— Tong Lu (08/2021)
— Ayushi Saxena (02/2021)
— Sheyda Peyman (01/2021)
— Cem Unsal (01/2021)
— Luke Evans (12/2020)
— Qiong Wu (08/2020)
— Xiaoyu Zhou (07/2020)
— Konstantinos Pantazis (05/2020)
— Andrew Lauziere (12/2019)
— Chris Dock (05/2019)

- Member of the Dissertation Proposal Committee for Yishan Ding, Measurement, Statistics and Evaluation Program, EDMS, UMD (11/2022)

**College-level Service.**
- Invited talk at COMBINE seminar course (PHYS781), December 2021
- Faculty flash talk at 2021 COMBINE Lightning Workshop

**University of Massachusetts, Amherst.**

**Departmental Service.**
- Member of the Tenure-Track Statistics Assistant Professor Search Committee, AY 2018-19
- Organizer, Probability and Statistics Seminar series AY 2017-18
- Member, VAP Postdoc Search Committee, AY 2017-18

**University-level Service.**
- UMass Amherst DataFest Local Organizer, DataFest 2019

**Johns Hopkins University.**

**Departmental Service.**
- Served on one Johns Hopkins University Ph.D. candidacy exam committee (Heather Pastolic)
- Served on six Johns Hopkins University dissertation defense committees (Li Chen, Henry Pao, Cencheng Shen, Jordan Yoder (served as Second Reader), Keith Levin, Heather Patsolic)

**College-level Service.**
- Served on three Johns Hopkins University Graduate Board Oral exam committees (Travis Wolfe, Pushpendre Rastogi and Jordan Yoder)

**Conference/Workshop Organization**

**2022**
Organized an invited session entitled “Spectral methods in statistical network inference” at the 15th International Conference of the ERCIM WG on Computational and Methodological Statistics (CMStatistics 2022)

Program Co-chair (organizer), 6th workshop on Graph Techniques for Adversarial Activity Analytics (GTA³ 6.0) in conjunction with the 2022 IEEE Big Data conference. December 2022

Workshop co-organizer (with Profs. Radu Balan, Wojtek Czaja, Maria Cameron), Complex Networks: Analysis, Numerics, and Applications. Workshop held at UMD Math/Norbert Wiener Center, February 2022

Program Co-chair (organizer), 5th workshop on Graph Techniques for Adversarial Activity Analytics (GTA³ 5.0) in conjunction with the 2021 IEEE Big Data conference. December 2021

Co-organized (with Avanti Athreya (JHU) and Keith Levin (UWisc)) a satellite entitled “Low-rank models in multiple-network analysis” at Networks 2021: A Joint Sunbelt and NetSci Conference

Program Co-chair (organizer), 4th workshop on Graph Techniques for Adversarial Activity Analytics (GTA³ 4.0) in conjunction with the 2020 IEEE Big Data conference. December 2020

Program Co-chair (organizer), 3rd workshop on Graph Techniques for Adversarial Activity Analytics (GTA³ 3.0) in conjunction with the 2019 IEEE Big Data conference. December 2019

Program Co-chair (organizer), 2nd workshop on Graph Techniques for Adversarial Activity Analytics (GTA³ 2.0) in conjunction with the 2018 IEEE Big Data conference. December 10th, 2018

Co-organized (with Daniel L. Sussman) an Invited Session at the 2018 Joint Statistics Meetings on Recent Advances in Multiple Graph Inference

Co-organized (with Betsy Ogburn of JHU Biostats) the 2017 IMS New Researchers’ Conference

- Supported by grant N00014-17-1-2512 from the Office of Naval Research, $15,000 (PI joint with Betsy Ogburn)

- Supported by grant 1 R13 CA221378-01 from the National Institutes of Health, $18,566 (PI joint with Betsy Ogburn (contact))

- Also generously supported by NSF

**2016**
Served on program committee for 4th SIAM Workshop on Network Science, July 2016

**2015**
Co-organized (with Daniel L. Sussman) the Session on Statistical Inference for High-Dimensional Data at the International Society for Nonparametric Statistics Meeting, July 2015

**External Committee Membership**

2016–2019 IMS Committee on New Researchers
