| Topic                      | Item No | Checklist item description                                                                 | Reported on Page Number/Line Number | Reported on Section/Paragraph |
|----------------------------|---------|-------------------------------------------------------------------------------------------|------------------------------------|------------------------------|
| Title                      | 1       | The diagnosis or intervention of primary focus followed by the words “case report”         | page 1/ line 1-3                   | FirstPage                    |
| Key Words                  | 2       | 2 to 5 key words that identify diagnoses or interventions in this case report, including “case report” | page 1/line 19-20                 | FirstPage                    |
| Abstract (no references)   | 3a      | Introduction: What is unique about this case and what does it add to the scientific literature? | page 2/ line 25-26                | Abstract                     |
|                            | 3b      | Main symptoms and/or important clinical findings                                           | page 2/ line 29                   | Abstract                     |
|                            | 3c      | The main diagnoses, therapeutic interventions, and outcomes                                | page 2/ line 30                   | Abstract                     |
|                            | 3d      | Conclusion—What is the main “take-away” lesson(s) from this case?                         | page 2/ line 36-38                | Abstract                     |
| Introduction               | 4       | One or two paragraphs summarizing why this case is unique (may include references)         | page 3/ line 41-54                | Introduction                 |
| Patient Information        | 5a      | De-identified patient specific information                                                  | page 3/ line 56                   | Case Presentation            |
|                            | 5b      | Primary concerns and symptoms of the patient                                               | page 3/line 58                    | Case Presentation            |
|                            | 5c      | Medical, family, and psycho-social history including relevant genetic information           | page 3/ line 58                   | Case Presentation            |
|                            | 5d      | Relevant past interventions with outcomes                                                   | page 3/line 58                    | Case Presentation            |
| Clinical Findings          | 6       | Describe significant physical examination (PE) and important clinical findings             | page 3/ line 59                   | Case Presentation            |
| Timeline                   | 7       | Historical and current information from this episode of care organized as a timeline       | page 3/line 57                    | Case Presentation            |
| Diagnostic Assessment      | 8a      | Diagnostic testing (such as PE, laboratory testing, imaging, surveys).                     | page 4/ line 62                   | Case Presentation            |
|                            | 8b      | Diagnostic challenges (such as access to testing, financial, or cultural)                 | page 4/ line 62                   | Case Presentation            |
|                            | 8c      | Diagnosis (including other diagnoses considered)                                           | page 4/ line 62                   | Case Presentation            |
|                            | 8d      | Prognosis (such as staging in oncology) where applicable                                  | page 5/line 84                    | Case Presentation            |
| Therapeutic Intervention   | 9a      | Types of therapeutic intervention (such as pharmacologic, surgical, preventive, self-care) | page 4/ line 72                   | Surgical technique           |
|                            | 9b      | Administration of therapeutic intervention (such as dosage, strength, duration)            | page 4/ line 72                   | Surgical technique           |
|                            | 9c      | Changes in therapeutic intervention (with rationale)                                      | page 4/line 73                    | Surgical technique           |
| Follow-up and Outcomes | | | |
| --- | --- | --- | |
| 10a | Clinician and patient-assessed outcomes (if available) | page 5/line 84 | Results |
| 10b | Important follow-up diagnostic and other test results | page 5/line 84 | Results |
| 10c | Intervention adherence and tolerability (How was this assessed?) | Yes | Results |
| 10d | Adverse and unanticipated events | None | Results |
| Discussion | | | |
| 11a | A scientific discussion of the strengths AND limitations associated with this case report | page 5/ line 100 | Discussion |
| 11b | Discussion of the relevant medical literature with references | page 5/ line 88 | Discussion |
| 11c | The scientific rationale for any conclusions (including assessment of possible causes) | page 7/line 128 | Discussion |
| 11d | The primary “take-away” lessons of this case report (without references) in a one paragraph conclusion | page 8/line 128 | Discussion |
| Patient Perspective | | | |
| 12 | The patient should share their perspective in one to two paragraphs on the treatment(s) they received | None | Discussion |
| Informed Consent | | | |
| 13 | Did the patient give informed consent? Please provide if requested | Yes ✔ | No □ |
