Preface

Photonics Meeting 2019 (PM19) is an annual event organized by the Optical Society of Malaysia (OSM) in celebrating UNESCO International Day of Light. It was held on 8th and 9th July 2019 at Universiti Teknologi MARA, Dungun, Terengganu, Malaysia. This two-day event consists of a conference and a workshop that receives nearly 40 participants from the photonics and optics field. The primary goal of PM19 is to promote research and development activities, and to exchange scientific knowledge among the participants. A compilation of articles that represent the significant results of the conference has been selected to publish in this volume.
