Fragments of basalt disrupted by fluid

Shear zones with fine-grained basalt fragments and syn-kinematic chlorite

Chlorite-filled fractures

Fragments of basalt

Plagioclase phenocrysts

Vesicles

Multiple generations of veins

Alteration of matrix to chlorite

Vesicles
Basalt clasts cut by early veins

Gouge with basalt clasts

Basalt, randomly-oriented plagioclase laths

Calcite

Epidote

High strain, foliated gouge with flattened lenses of basalt

Large clast of fine-grained sediments

Quartz vein
Lenses of intact basalt cut by veins, within basalt-derived gouge

Chlorite-filled fractures

Matrix of cataclastic flow & syn-kinematic chlorite gouge
