GUIDANCE FOR AUTHORS

Aims and Scope Biology, Medicine, & Natural Product Chemistry, this journal is published to attract and disseminate innovative and expert findings in the fields of plant, animal, and microorganism secondary metabolism, and the effect of natural product on biological system as a reference source for researchers in these fields, and with the aim to set international standards in their methodology.

Article types The journal seeks original full-length research papers, reviews, and short communication. Manuscript of original research should be written in English. It should consist of no more than 6000 words (including tables and figures) proportional with articles in this publication number. Review articles will be accommodated, while, short communication should be written at least 2000 words, except for pre-study.

Submission Submission accepts online submission through OJS system and/or email to the editors at jafarluthfi@yahoo.com. Submitted manuscripts should be the original works of the author(s). The manuscript must be accompanied by a cover letter containing the article title, the first name and last name of all the authors, a paragraph describing the claimed novelty of the findings versus current knowledge. Submission of a manuscript implies that the submitted work has not been published before (except as part of a thesis or report, or abstract); and is not being considered for publication elsewhere. When a manuscript written by a group, all authors should read and approve the final version of the submitted manuscript and its revision. The name of the first author of manuscripts for contribution should have made substantial contributions to the concept and design of the research, acquisition of the data and its analysis; drafting of the manuscript and correcting of the revision. All authors must be responsible for the quality, accuracy, and authenticity of the research.

Scientific names The sample journal reprint is only available by special request.

Scientific names of organisms should follow the order of the IUPAC - IUB. For DNA reference the International Standard in their methodology.

Copyright If and when the manuscript is accepted for publication, the author(s) still retain copyright and retain publishing rights without restrictions. Authors or others are allowed to multiply article as long as for commercial purposes. For the new invention, authors are suggested to manage its patent before published./

Ethics Author(s) must be obedient to the law and/or ethics in treating the object of research and pay attention to the legality of material sources and intellectual property rights.

Conflicts of interest Manuscript is typed on A4 (210x297 mm)
