Supplemental Information

IncRNA UCA1 Promotes Gefitinib Resistance as a ceRNA to Target FOSL2 by Sponging miR-143 in Non-small Cell Lung Cancer

Xiliu Chen, Zhongliang Wang, Fan Tong, Xiaorong Dong, Gang Wu, and Ruiguang Zhang
F1S. A. Flow cytometry analysis of apoptosis in PC9GR and HCC827GR cells transfected with si-Control or si-UCA1 prior to the stimulation of 0.1 μM gefitinib treatment for 36h; B. Flow cytometry analysis of apoptosis in PC9 and HCC827 cells transfected with pcDNAControl or pcDNA-UCA1 prior to the stimulation of 0.1 μM gefitinib treatment for 36h;
