Figure S1. The effect of Liuwei Dihuang Pill on PI3K-Akt-MTOR pathway in IgAN mouse kidney was detected. (A) the expression content and phosphorylation level of Akt and mTOR in kidney tissue of mice in each group were detected by Western Blot method; (B) figure A quantification map. LWDHW means Liuwei Dihuang pills; ** means p < 0.01; * * means p < 0.05. ** it means p < 0.01, and ns means p > 0.05.
