**Supplementary Table 2.** Pairwise Linkage Disequilibrium between Four Single Nucleotide Polymorphisms in Ischemic Stroke Patients and Others

|       | rs17321515 | rs2954029 | rs10431036 | rs11214109 |
|-------|------------|-----------|------------|------------|
| rs17321515 | -          | 1.000     | 0.019      | 0.022      |
| rs2954029  | 0.996      | -         | 0.022      | 0.025      |
| rs10431036 | 0.000      | 0.000     | -          | 0.958      |
| rs11214109 | 0.000      | 0.000     | 0.904      | -          |

The upper triangle is $D'$ value and the lower triangle is $r^2$ value.
