(Cell 182, 497–514.e1–e22; July 23, 2020)

As a result of human error, the spatial feature plot labeled ITGB1 in Figure 6G was instead a duplicate of the ITGA3 data just below it. Additionally, in Figure S4C, the order of some of the bar labels on the plot were swapped, in particular, the order of Treg, CD4+ Naive, NK, and CD8+ Naive. Both figures have been corrected online. We are confident that these inadvertent panel duplication and labeling errors did not have any effect on our analyses or on any conclusions drawn from the paper, and we apologize for the errors.
