Abstract: This paper is entitled “Invade of mutual fund products on selected funding organizations in India.” Which gives the perception of STP, SIP and SWP are the mutual fund schemes that helps us to have the direct interaction with the asset management company in what schemes are you ready to invest; this procedure can be done without the involvement of the third party like brokers and distributors hence it is not necessary to pay the commission to the third parties and this process can be done by the involvement of the brokers and distributors. This study is mainly useful for the individual investors (or) institutions for making more and more investments in selected mutual funds schemes like STP; SIP and SWP.

Keywords: Mutual funds performance, investment, investors, commission, traditional returns.

I. INTRODUCTION
A mutual fund is just the connecting bridge that allows a group of investors to pool their money together with a predetermined investment objective.

The mutual fund will have a fund manager, who is the responsible for investing the gathered money into specific securities (stocks or bonds). When we invest in a mutual fund, we are buying units or portions of the mutual fund and thus on investing on a shareholder or unit holder of the fund. A Mutual Fund is managed investment fund that pools lots of money from many of the investors to purchase securities.

In the present scenario increase in the savings and improvements in the development of the investment through markets the needs and scope for mutual fund operations has increased. Many innovative and creative ideas of mutual funds raised the confidence in investors the stock discrimination will reach the various income divisions like geographical division and risk bearing division of the investors.

VII. REVIEW OF LITERATURE

Systematic Withdrawal Plan (SWP) An efficient withdrawal plan (SWP) is a planned venture withdrawal plan normally utilized in retirement. Financial specialists can structure SWPs in different ways. Common assets regularly enable a financial specialist to decide a deliberate withdrawal plan that incorporates interim payouts month to month, quarterly, semi-every year or yearly. Systematic Investment Plan (SIP) this is where financial specialists make ordinary, equivalent installments into a shared reserve, exchanging record or retirement account. ASystematic Investment Plan (SIP) might be a vehicle offered by the common assets to help you spare as often as possible. It is somewhat similar to a revenant store with the post working environment or banks any place you set in a very piece month to month. The qualification here is that number is supplied in an open-end finance. ASystematic Investment Plan (SIP) is a vehicle offered by common assets to enable you to spare consistently. Taste is to isolate an aggregate of the every month or quarter, and use that to buy units of a particular shared hold, paying little regard to its expense. People like gather the extra reliably and build up a theory. These theories are done to achieve our future cash related destinations like obtaining a house, long term funds, etc.

Systematic Transfer Plan (STP) is where a financial specialist moves a fixed measure of cash starting with one classification of store then onto the next, as a rule from obligation assets to value reserves.

| 2016          | 397.7               | 2507.195    | 2641.2      | 1227        |
| 2017          | 57                  | 146.7436    | 564.5       | 841.8       |
| 2018          | 144.5143            | 664.4211    | 624.7       | 823.6       |

UTI MUTUAL FUND

| 2016          | 8.37924             | 5033.623    | 61.601      | 762.9834    |
| 2017          | 0.24432             | 71.99882    | 2.04488     | 750.7853    |
| 2018          | 45.42564            | 1652.088    | 685.8       | 813         |

ICICI mutual fund

| 2016          | 88.89996            | 573.0221    | 558.5       | 839.4       |
| 2017          | 1100.0065           | 1755.45     | 348.2       | 838.6       |
| 2018          | 107.3143            | 2855.45     | 528.2       | 838.6       |

3) Interpretation: From the above analysis for Bank of India Traditional Returns highest returns in the year 174.68 and SIP Returns is a highest return in the year of 2018 is 1553.81, SWP Returns in the consecutive years 457.3,-55.9 and 889.8, STP Returns is consecutive years 827 to 825.

IX. FINDINGS

Bank of India on January opened at 15.62 and closed at 17.47 in the year of 2018, Traditional Returns highest returns in the year 174.68 and SIP Returns is a highest return in the year of 2018 is 1553.81.

XI. SUGGESTIONS

Financial specialists should think about the essential components of shared reserve.

1) Investors ought to pick their hazard level and as per that they need to pick the assets. Speculators ought to examine the organization execution and afterward contribute the assets.

2) Investors should sit tight for the long haul returns.

3) Effects of differential degrees of hazard on the arrival of the portfolios must be considered.

XI. CONCLUSION

The main reason to invest in the mutual funds is even the small amount invested early will grow over the course of working life ,the clear and most understandable in investing is to adopt Dollar Cost Averaging this process works for both buying and selling decisions. Investing in SWP, SIP or STP investment strategies holds long term and also stocks have outperformed every asset class over the long run.
