Meet the APJON Editorial Board

The following oncology nurses, nurse practitioners, educators, administrators, and other healthcare providers comprise the Editorial Board of the Asia-Pacific Journal of Oncology Nursing (APJON) for 2016. They are involved in cancer care and support APJON’s mission to provide a platform for oncology nurses from Asia-Pacific region to share information in all field of oncology nursing from prevention to palliative care. Since 2015, there has been a special topic in each issue, with the topic editor soliciting articles reading all the submitted articles and serving as guest editor for that issue of the journal. We welcome your comments, ideas, and suggestions for special topics. Contact information can be found at the end of each description.

Editor-in-Chief

Judith (Judi) Johnson, PhD, RN, FAAN has her own consulting company, HealthQuest that addresses living with a life threatening illness. Her main clients are companies and organizations working in oncology and stroke. She has served as the Editor-in-Chief of the Asia-Pacific Journal of Oncology Nursing (APJON) since 2014. Dr. Johnson has a diploma in nursing from Augustana Hospital in Chicago, IL, Bachelor of Science in Nursing (BSN) from the University of Rochester, NY, Masters in Public Health Nursing, and Doctorate in Adult Education from the University of Minnesota (U of MN.). She also has a certificate in Chemical Counseling from the U of MN. and a Certificate in Oncology Nursing from the Royal Marsden Hospital in London, England. Dr. Johnson was elected as the Oncology Nursing Society’s President in 1983-1987, to Board of Multinational Association of Supportive Care in Cancer in 1998 and 2004 and appointed to the International Society of Nurses in Cancer Care (ISNCC) Board in 1988 and again in 1999.

The American Cancer Society (ACS) adopted Dr. Johnson’s PhD thesis, I Can Cope education course, in 1980. American nurses quickly took up the course for their cancer patients followed by implementation globally. Research to adapt I Can Cope to the Swedish population was carried out in Lund, Sweden in 1987. Dr. Johnson also launched a PhD program at Hokkaido University of Health Sciences in Sapporo Japan and held a faculty position there from 1999 to 2004. She has received numerous awards including being appointed a Fulbright scholar. This lead to patient education (PE) projects at Tianjin, University and Cancer Center in China and Daystar University in Nairobi, Kenya. The ONS, ACS, and ISNCC awarded Judi their Distinguished Service Awards. She has obtained more than 20 grants, mainly to research studies in PE. Over 125 articles, book chapters and AV productions are to her credit long with having co-authored 5 books. Judi can be reached at judibj@comcast.net and editor@apjon.org.

Associate Editors

Sultan Kav, PhD, RN is a Professor at Baskent University, Faculty of Health Sciences Department of Nursing in Ankara, Turkey. She received her Bachelor of Nursing, Master and PhD degrees from Hacettepe University School of Nursing in Ankara, Turkey. She has over 25 years experiences in oncology nursing; is an active member of national and international organizations namely TONA (Turkish Oncology Nursing Society), ISNCC, EONS, ONS and MASCC. She was served on ISNCC and EONS Board and former president of EONS. She was the principal investigator of several studies of the education of patients receiving oral cancer agents, which led to develop “The MASCC Teaching Tool for Patients Receiving Oral Agents for Cancer (MOATT)©” and the MOATT© User Guide.

She is the recipient of the 2010 ONS International Award for Contributions to Cancer Care; prior to this she has received MASCC Young Investigator Award in 2004 and MASCC Best Young Investigator Award for her research study “Patient Education and Follow-up for Oral Chemotherapy Treatment in Turkey” in 2005. Sultan can be reached at sultan.kav@gmail.com.

Winnie K.W. So, PhD, RN is an associate professor of the Nethersole School of Nursing, the Chinese University of Hong Kong. She also contributes herself to more than 20 international referee journals as a reviewer. Dr. So has received regular invitations to present at conference or scientific meeting at local, national and international levels. Since 2003, she has delivered 26 invited presentations and 16 invited lectures. She also disseminates results of her research projects at various conferences and via publication of international referee journals. She has published 4 book chapters and 67 articles in national and international referee journals. She has also performed 86 presentations at various national and international conferences.

Apart from scholarship activities, Dr. So has been taking leadership roles in national, regional and international professional organizations. She was recently being elected as being the President of Asian Oncology Nursing Society (AONS). She is Board of Director (communication portfolio) and Chairperson of ISNCC, and Council Member of The World Association for Chinese Quality of Life (WACQOL) and Hong Kong College of Education and Research (HKCERN). Dr. So has been invited to be an advisor of patient association, national hospitals, and national/international professional bodies. She is a visiting professor of Union Hospital to support nursing leaders to develop and implement evidence-based practice for improving quality of care in the hospital. She is also an advisor of the Symptom Management Group, Tianjin Medical Cancer Hospital, China. She is also a honorary advisor of the education committee of the Hong Kong Liver Transplant Patients’ Association. Winnie can be reached at winnieso@cuhk.edu.hk.

Myungsun Yi, DNS, RN is a professor at the College of Nursing Seoul National University in South Korea and the past-president of the Asian Oncology Nursing Society (AONS). She earned her Bachelor of Science in nursing degree from Seoul National University and her Doctor of Nursing Science degree from the State University of New York at Buffalo, USA. She has been studying and working for women with breast cancer for more than 20 years. She established and operates the Korea Breast Cancer Cyber Center (www.kbccc.org) to support women with breast cancer by providing information and online counseling in Korea. She has worked as the president of the Korean Oncology Nursing Society during 2006-2007 and the Korean Association for Qualitative Research in 2002-2014. Myungsun can be reached at donam@snu.ac.kr.

Meera Achrekar, PhD, RN has worked in various capacities through a career spanning 25 years, and is presently Assistant Nursing Superintendent at the Advanced Centre for Treatment, Research and Education in Cancer (ACTREC), Tata Memorial Centre. She also holds the academic position of Professor, Homi Bhabha National Institute (deemed university) at the Tata Memorial Hospital. She is also the Coordinator of ACTREC’s Cancer Awareness Program, Principal Assessor with the National Accreditation Board for Hospitals and Healthcare (NABH), Secretary of Trained Nurses Association of India (TNAI), Millennium city branch, and External Secretary of the Asian Oncology Nursing Society (AONS).

Meera obtained the Bachelor’s (1986) and Master’s degree (2001) in Nursing from Leelabai Thackersey College of Nursing, where she stood first during year two of the Master’s program and stood first in Clinical specialty too. She also holds a Master’s degree in Sociology, certification in Healthcare Waste Management, and a professional diploma in Clinical Research. She has, in 2015, been awarded the Doctorate degree by SNDT University for her research on “Clinical communication skill of nurses.” Her research focus is on “Quality improvement in cancer care nursing”. Meera has also presented papers at several national and international meetings, winning a first and a second prize for paper presentation. Meera can be reached at machrekar@actrec.gov.in.

Yati Afyanti, SKp, MN is an associate Professor, senior researcher and lecturer Faculty of Nursing, University of Indonesia. She received her Bachelor of Nursing at Indonesia University, Indonesia in 1995, Master of Nursing at the Memorial University of Newfoundland, Canada in 2002 and Doctor in Nursing at Indonesia University in 2011. She is expertise in women health especially in cancer gynecological issues, and also in qualitative research methods. During five years period, her research project has been focused on sexual health promotion and prevention particularly in the context of gynecology cancer and developing of supportive care program for Indonesian gynecological cancer. She had 30 paper presented in referee journals and conferences. Apart from her publications, she won the best research oral presentation award in 2015 the Asian Oncology Nursing Society Conferences and received the grant funding from Directorate of Higher Education, Minister of National Education, Republic of Indonesia to develop the training program for empowering Indonesian oncology nurses to contribute provide comprehensive nursing care for cancer survivors especially on psychosexual issues. Afyanti can be reached at yatikris@ui.ac.id.

Kimberly Alexander, RN, BNurs, BHlthSc (PubHlth), MEd (Higher Ed), PhD is currently appointed as a Senior Lecturer and Unit Coordinator in the School of Nursing at the Queensland University of Technology, Australia. Kimberly is the Subject Area Coordinator for Cancer Nursing within the School and teaches the coursework component of the postgraduate and undergraduate cancer curriculum and supervises quantitative Masters and doctoral students in the field. Kimberly has a double degree in Nursing and Public Health and she was awarded her PhD in 2011. More recently Kimberly graduated with a graduate certificate in Academic Practice and a Masters of Education (Higher Education). Kimberly has expertise in epidemiology, genetics, and cancer nursing. Her current program of research focuses on genetics and subjective patient experiences such as symptoms and Quality of Life. Her PhD investigated the relationship between quality of life and genetics in men with prostate cancer and she continues this research in people with cancer and other chronic conditions. Kimberly can be contacted via k.alexander@qut.edu.au.

Alberto Domínguez Aliphat, MD, BN, RN is an associate professor of the Oncology School Nursing, the Instituto Nacional de Cancrologia, Mexico. He received his Bachelor of nursing at Universidad Nacional Autonoma de Mexico (UNAM) 1999, and MD. Degree at UNAM 2005. His research area focuses on cancer critical care. He is

Greta G. Cummings, PhD, RN, FCAHS, FAAN leads the CLEAR Outcomes (Connecting Leadership Education & Research) research program in leadership science in health services, which focuses on the leadership practices of healthcare decision-makers and managers to achieve better outcomes for providers and patients. Dr. Cummings has systematically documented both positive and negative effects of specific leadership practices on outcomes for the health system, the healthcare workforce and for patients. She has published over 160 papers in the past decade and in 2014 was noted by Thomson Reuters as a Highly Cited Researcher in Social Sciences. Dr. Cummings has received the Canadian Nurses Association Order of Merit for Research, and in 2015 was inaugurated into the Sigma Theta Tau International Nurse Researcher Hall of Fame. Greta can be reached at gretac@ualberta.ca.

Kai-Chow Choi, PhD, BSc is currently an Assistant Professor of The Nethersole School of Nursing, The Chinese University of Hong Kong. He has a PhD in Statistics and extensive experience in biostatistics and epidemiological studies. His research interests include epidemiology of obesity and metabolic syndrome, health behaviour research, particularly cancer screening behaviour and health care needs of cancer survivors, survival analysis with long-term survivors and competing risk models. He has jointly published over 120 papers in peer-reviewed journals on health care and medical research. Kai-Chow can be reached at kchoi@cuhk.edu.hk.

Kamala Devi, M, MSc, BHSc (N), RN is a Senior Lecturer at the Alice Lee Centre for Nursing Studies, National University of Singapore. She received her Bachelor of Health Science (Nursing) at University of Sydney in 1996 and Master of Science (Advanced Practice in Cancer Care) at University of Surrey, United Kingdom in 2003. Her research focuses on quality of life in cancer patients, workforce issues and nursing education. She has served in several committees addressing nursing workforce, evidence-based practice and nursing education reforms. She is a member of the Education Committee in the Singapore Nursing Board and is now serving in the Singapore Nurses Association as the Board of Directors (Editorial). Kamala can be reached at nurmkd@nus.edu.sg.

Marichen A. Dychangco, PhD, RN is a Professor in the College of Nursing and Allied Health Sciences of St. Paul University Manila and the Director of the Planning and Quality Assurance Office of the same university. She received her Bachelor of Nursing at St. Paul University Manila in 1989, Master of Nursing major in Clinical Nursing at the University of Asia and Pacific in 2004 and Doctor of Philosophy in Nursing Education at St. Paul University Manila in 2015. She also has a Postgraduate Certificate in Professional Education from University of Chester in 2013. Her research area focuses on nursing education, spirituality, death and dying, and nurse leadership. She has presented her papers in local and international conferences. She is acts as adviser, critique, panel member, and reviewer in her institution and other

Marjana Bernot, RN, BSc is a Head Nurse at the Department of Inpatient Nursing and Care at the Institute of Oncology Ljubljana, Slovenia. She is a lecturer at the Faculty of Health Care Jesenice, Slovenia for modules on oncology nursing and palliative care. She is a member of the Slovenian Oncology Nursing Society and the European Oncology Nursing Society, where she is a member of the Education Working Group. She is also involved in the working group for the development of oncology nursing specialization in Slovenia.

Her professional area focuses on nursing education, leadership, palliative care, medical and radiotherapy oncology treatment. She has participated in various conferences and has written 53 conference contributions. She has produced 3 of her own theses and mentored undergraduates on a further 27, focusing on research into evidence-based practice and other professional skills. She has published 3 handbooks and several professional articles in nursing and oncology journals. She has been involved in the SMILEON project call, Supporting innovative learning approaches through Mobile integration in the workplace-Oncology nursing. MarjanaBernot can be reached at mbernot@onko-i.si.

Yong-Yi Chen, PhD, MN, BN, RN is an Vice president of Hunan Cancer Hospital, The Affiliated Cancer Hospital of Xiangya School of Medicine, Central South University in China. She received her Bachelor of Nursing at Central South University, China in 2002, Master of Science in nursing at Central South University, China in 2009 and Doctor of Philosophy at Central South University, China in 2013.

Her research area focuses on physical-psychological-social-spiritual care for cancer patients, the patient cancer satisfaction evaluation, vascular access, palliative care and standardized training of Oncology nursing specialists. She had more than 100 papers presented in reference journals, newsletters and conferences as well as more than 10 monographs. To commend her outstanding contribution to nursing administration, she received the Excellent Nursing Director Award, China in 2015. She is now serving the Asian Oncology Nursing Society as the Internal Secretary. Yong-Yi can be reached at 414700595@qq.com.

Li-Lu Chang, DNP, MSN, RN is the chief of the Center for Advancement of Nursing Education, Koo Foundation Sun Yat-Sen Cancer Center in Taiwan. Dr. Chang completed her BSN at the National Taiwan University in Taipei, Taiwan. She earned an MSN-CNS and a DNP from the Duke University School of Nursing. Dr. Chang's project research focuses on infection prevention, implementation of evidence-based practice, patient safety and quality of care. Her recent research focuses on nurse education and nursing leadership development. Dr. Chang is the past-president of Taiwan Oncology Nursing Society from 2008 to 2014. She has been leading the Taiwan Oncology Nursing Society to develop several clinical practice guidelines which are widely adopted among cancer centers in Taiwan. Li-Lu can be reached at Chang@kfsyscc.org.

Emiko Endo, PhD, RN is a professor of Musashino University, Graduate School. She received her Associate Degree in English at Tokyo Woman’s Christian University and her Bachelor of Arts in philosophy at Keio University. She received her Master of Science in nursing and Doctor of Philosophy (Nursing) at University of Minnesota, United States, in 1996. She is focusing on cancer nursing within the framework of Margaret Newman’s theory of health as expanding consciousness. She has many publications in terms of nursing interventions within the unitary, self-organizing, transformative paradigm in nursing science. She developed Oncology Certified Nursing Specialists who work within this framework. She is now retiring from the university and establishing the NPO Newmann theory-research-practice group in 2016. She can be reached at mxk02663@nifty.com.

Margaret I. Fitch, PhD, RN has a Bachelor of Nursing, Dalhousie University (Halifax) a Masters of Science in Nursing (Faculty of Nursing) and Doctorate (Institute of Medical Science), University of Toronto. Dr Fitch is Professor (Adjunct) in the Bloomberg Faculty of Nursing and Professor in the School of Graduate Studies at the University of Toronto. She is also a Research Associate at the Sunnybrook Research Institute at Sunnybrook Health Sciences Centre. She maintains an active research program in supportive cancer care with an emphasis on understanding patient perspectives. Dr. Fitch is also the Expert Lead with the Person-Centered Portfolio of the Canadian Partnership Against Cancer. She has provided leadership across the country in moving a person-centered agenda forward for cancer patients, survivors, and their family members. Dr. Fitch is also appointed as the Editor-in-Chief for the Canadian Oncology Nursing Journal. She was the Founding President of the Canadian Association of Nurses in Oncology and served as the President of the International Society of Nurses in Cancer Care. She has written extensively about the supportive care needs of cancer patients, survivors, and their family members. Dr. Fitch is a member of the Sigma Theta Tau International Society of Nurses, served on the Lambda Pi Chapter Board. She is a past-President of the Board of Directors of the Canadian Association of Nurses in Oncology (2001-03) and past-President of the Board, Canadian Association of Psychosocial Oncology (2005-07). Esther is a past member of the Board of Directors, International Society of Nurses in Cancer Care (2006–2014). Esther can be reached at cglennon@kumc.edu.

Ilana Kadmon, PhD, RN, BSN is a Nurse Specialist in Breast Cancer at Hadassah Medical Center, Jerusalem, Israel. Her PhD is from The University of Edinburgh, UK. Her research involved psycho-social aspects of breast cancer, and the role of the Breast Care Nurse. She was a pioneer in developing the post of the Breast Care Nurse in Israel. This position was initially developed by her at Hadassah and initiated by the Israel Cancer Association. Beyond her clinical expertise, at the Hadassah School of Nursing, Ilana lectures and writes in many areas on breast cancer care in general. Ilana served as a Board Member of the European Oncology Nursing Society, and was also a member of the Editorial Committee of the European Journal of Oncology Nursing. Ilana was involved in a mutual international collaborative project with nurses in Tianjin, China. She was there for seminars, and initiated some cross-cultural research in the area of partners of women with breast cancer, involving both countries. Moreover, Ilana has been invited to Cyprus, Greece Russia and Turkey to teach and give workshops. Ilana can be reached at ikadmon@hadassah.org.il.

Linda U. Krebs, PhD, RN, AOCN, FAAN is an Associate Professor at the University of Colorado College of Nursing, a member of the Membership Committee of University of Colorado Comprehensive Cancer Center and holds the Conference Management Portfolio for the International Society of Nurses in Cancer Care. She completed her BSN at the University of Vermont in 1968 and her Master’s and Doctoral degrees from the University of Colorado in 1977 and 1997 respectively.

Meet the APJON Editorial Board
Her research interests include cancer survivorship, alterations in sexual and reproductive dysfunction and cancer care in Native Americans and other underserved populations. She has extensive experience in oncology nursing and in oncology education for healthcare providers and the public, holding roles as oncology clinical nurse specialist and oncology nurse consultant/educator. She is Principal or Co-Investigator for several federally funded cancer-related projects, including smoking cessation in Native Americans and physical activity in cancer survivors. Additionally, she is a past national president of the Oncology Nursing Society and speaks nationally and internationally on cancer care. Linda can be reached at linda.krebs@ucdenver.edu.

Yeur-Hur Lai, PhD is a professor and director of School of Nursing at the National Taiwan University (NTU). She is also the director of Department of Nursing in NTU Hospital and Chief of Nursing for NTU Cancer Center. She received MSN in Oncology Nursing from University of Pennsylvania and PhD from the University of North Carolina at Chapel Hill in USA.

She has served as President of Oncology Nursing Society of Taiwan (ONST) and President of Sigma Theta Tau International, Honor Society of Nursing, Lambda Beta At-Large Chapter during 2002 to 2009. She was also a board of director of Multinational Association for the Supportive Care in Cancer (MASCC) during 2007 to June 2012; and a faculty member of “supportive and palliative cancer care” committee for 2012 to 2015 European Society of Medical Oncology (ESMO) conferences and ESMO-Asia Conferences during 2015-2016. She is the recipient of ‘2002 ONS International Award for Contribution to Cancer Care’; and the recipient of 2013 Nurses Researcher Hall of Fame (NRHF), Sigma Theta Tau International, Honor Society of Nursing. Currently, she serves as Editor-in-Chief of ‘The Journal of Nursing Research’ and editors for several international recognized journals. Professor Lai has involved in several national and international cancer related policy, education and academic committees and societies for more than 20 years. Yeur-Hur can be reached at laiyhwk@ntu.edu.tw.

Haeok Lee, RN, PhD, FAAN who is a Korean American nurse scientist, received her doctoral degree from the Nursing Physiology Department, College of Nursing, University of California San Francisco (UCSF) in 1993 and her post-doctoral training from college of medicine, UCSF. Dr. Lee worked at Case Western Reserve University, and University of Colorado Health Sciences Center. She has worked at the UMass Boston since 2008. Dr. Lee has established a long-term commitment to minority health, especially Asian American Pacific Islanders, as a community leader, community health educator, and community researcher, and all these services have become a foundation for her community based participatory research (CBPR).

Dr. Lee’s research addresses current health problems framed in the context of social, political, and economic settings and her studies have improved racial and ethnic data and developed national health policies to address health disparities in HBV infections and liver cancer among minorities. Dr. Lee’s research, which is noteworthy for its theoretical base, is filling the gaps of research. Lee’s research is beginning to have a favorable impact on national and international health policies and continuing education programs directed toward the global elimination of cervical and liver cancer-related health disparities in underserved and understudied populations. Haeok can be reached at Haeok.Lee@umb.edu.

David Larkin, PhD, BN, RN is the Clinical Cancer Research Nurse for Cancer Services and SYNERGY: Nursing and Midwifery Research at the Canberra Hospital. He is a Professional Associate at University of Canberra. He started his nursing career as an Enrolled Nurse in Palliative Care in 1992, completed the Bachelor of Nursing at Charles Sturt University, Australia in 2001, Graduate Certificate in Clinical Trials Management at University of Canberra, Australia in 2008 and Doctor of Philosophy at University of Adelaide, Australia in 2014.

David’s research interests include quality of life, survivorship, service delivery, patient experience, evidence synthesis and evidence translation. An early career researcher, David has over 50 papers presented in peer-reviewed journals and at conferences. He is a member of the Multinational Association of Supportive Care in Cancer Fatigue Study Group. He has previously served on the International Conference on Cancer Nursing Scientific Planning Committee, and is now serving the Cancer Nursing Society of Australia as a member of the Research Committee and Annual Congress Committee. David can be reached at david.larkin@act.gov.au.

Biemba K. Maliti, BSN, RN is a Nursing Officer Oncology at the Cancer Diseases Hospital in Lusaka, Zambia. She received her RN diploma at the Lusaka School of Nursing, Zambia in 1999, Bachelor of Science in Nursing at the University of Zambia in 2006, and is currently completing her research for her Masters of Science in Nursing (Oncology and Palliative Nursing Science) from the Witwatersrand University, South Africa. She is the President of the Zambia Oncology Nurses Society. She presented a paper at the 16th ICC in Atlanta entitled "Challenges of Cancer Nursing in Zambia, where she was also a participant in the Breast Cancer Trainer of Trainers. She trained 14 nurses providing cervical cancer screening at Primary Health Care Centres in breast cancer in 2012. Biemba can be reached at biembakm@gmail.com.
Rana F. Obeidat, PhD, CNS, RN is an Assistant Professor at Faculty of Nursing, Zarqa University, Jordan. She received her Bachelor of Nursing at Jordan University of Science and Technology, Jordan in 1997, her Masters of Nursing at Jordan University of Science and Technology, Jordan in 2005 and her Doctor of Philosophy at University at Buffalo, The State University of New York, New York, USA in 2012.

Her research program which utilizes both qualitative and quantitative methods is focused on the diagnosis and treatment experiences of Jordanian women diagnosed with breast cancer in general and early stage breast cancer in particular. The purpose of her program of research is to improve clinicians’ ability to provide individualized quality care to Jordanian women, meet their decision making and support needs, and develop culturally sensitive decision support interventions. She received George Bennet Dissertation Fellowship, Foundation for Informed Medical Decision Making in 2011, Shirley D. DeVoe Nursing Research Support Fund, School of Nursing, University at Buffalo, The State University of New York in 2011, Margaret McNamara Memorial Fund, World Bank Family Network Group in 2010, and Philanthropic Educational Organization (P.E.O) in 2009. Further, she received Jordan Best Paper Award (Hikma Award), Jordan Oncology Society, Jordan in 2014 and was nominated for New Investigator Award, Oncology Nursing Society, USA in 2014. Rana can be reached at robeidat@buffalo.edu.

O. Abimbola Oluwatosin, PhD, RN, RM is a senior lecturer at the Department of Nursing, University of Ibadan, Nigeria where she also obtained her Nursing degrees: BSc. (1984), MSc (1995) and PhD.(2005). She was a recipient of the International Oncology Nursing Fellowship (IONF), this was utilized at the MD Anderson Cancer Center in Houston Texas in 1999. Her research area focuses on early detection measures (EDM) and prevention of breast and cervical cancer among women in rural communities as well as Primary Health care nurses’ client teaching of Early Detection Measure (EDM) of women cancers. She has over 50 publications in refereed journals locally and internationally.

Abimbola is a fellow of Union for International Cancer Control (UICC), Sigma Theta Thau, Honour Society of Nursing, the chair of the research committee of the Nigerian Chapter of North American Nursing Diagnosis Association International (NANDAI), African Network. She is an Alumnus of the ICN Global Nursing Leadership Institute (GNU) 2015. She is the nursing representative at African Organization for Research and Training In Cancer (AORTIC) Council. Abimbola can be reached on aoluwatosin@yahoo.com and oa.oluwatosin@ui.edu.ng.

R. Glynn Owens, BTech, DipPsych, DPhil, AFBPsS is Professor of Psychology at the University of Auckland, New Zealand. He received his bachelor’s degree in psychology from Brunel University in 1974, and his DPhil from the University of Oxford in 1977. His previous posts include Directorship of the Liverpool University Clinical Psychology programme, Professor of Health Studies.
at the University of Wales, and Professor of Forensic Clinical Psychology at Bangor University.

His research areas encompass a wide range including psychological aspects of cancer care, end-of-life care, eating disorders and the ethics of end-of-life decisions. He has published over a hundred papers and several books on these and related issues. He has twice held the Presidency of the Independent Forensic Practitioners Institute and has provided expert testimony in legal cases in several legislatures around the world. Glynn can be reached at g.owens@auckland.ac.nz.

Cecilia G. Peña, RN, MAN finished her graduate studies at the University of Santo Tomas Graduate School with a degree of Master of Arts in Nursing. She graduated with honors: Benemeritus. Her concern for nurses in cancer centers and clinical oncology nursing prompted her to organize together with a medical oncologist and nurses from different hospitals, a nursing organization which now exist as Philippine Oncology Nurses Association (P.O.N.A.). She acted as Chief of Division of Nursing Research and Development which brought forth assignments as panel member and critic of several oncology nursing researches conducted by graduate students of the University of the Philippines College of Nursing and University of the Philippines Open University. Her experiences as Chief Nurse of the Department of Medicine added to her credentials being invited as lecturer, panel reactor, resource speaker in nursing symposia and conferences. She has received awards as outstanding alumni, outstanding nurse supervisor of Philippine General Hospital and Excellence award in Nursing from the Association of Nursing Service of the Philippines. Currently, she is President of the Philippine Oncology Nurses Association, Inc. She is an active Board member of the Asia Oncology Nurses Society and an Editorial Board of the Asia Pacific Journal of Oncology Nursing. Cecilia can be reached at cecilepena@yahoo.com.

Chua Gek Phin, MN, BN, ONC, RN is the Director of Patient and Family Education Department at the National Cancer Centre Singapore. She received her Bachelor of Nursing (1995) and Master of Nursing at the Queensland University of Technology, Australia (1997) under the WHO Scholarships. During her years of service, Gek Phin had presented extensively both locally and internationally. She was awarded the Best Clinical, Education and Leadership Poster Award during the 18th ICCN Conference in Panama City in 2014. She also received numerous awards including the Ministry of Health National Day Commendation Award (2014); Ministry of Health National Day Long Service Award (2014) and the President Nurse Award (2013). She had also contributed an article in the book “101 Global Leadership Lessons for Nurses”. She is currently embarking on a research study to establish the information needs of the patients with cancer and their level of satisfaction with the information received. This study is supported by a grant from the Community Cancer Fund. She is currently a Board Member of the Asian Oncology Nursing Society (AONS). Gek Phin can be reached at ncccgp@nccs.com.sg.

Pongpak Pittayapan, RN, DNsc is a Clinical Nurse Specialist in Oncology, Nursing Department, Siriraj Hospital, Faculty of Medicine, Mahidol University, Bangkok, Thailand. She received her Bachelor of Nursing Science since 1980, Master of Nursing Science since 1985, and Doctor of Nursing Science since 1999, from Mahidol University. She further received certificate of Oncological Nursing from Royal Marsden Institute of cancer research, London, UK since 1988.

Her research area focuses on Stress & Coping, Quality of life, Survivorship, Care Plan and Palliative Care.
