A Compendium of Musical Instruments and Instrumental Terminology in the Bible

'A Compendium of Musical Instruments and Instrumental Terminology in the Bible' draws on extensive historical research, comparative linguistic analysis and musical study to offer the first compilation of its kind. The volume examines the entire range of musical instruments in the Bible - stringed, wind and percussion - drawing on ancient and modern translations of the Bible and the works of rabbinc teachers, Church Fathers and medieval, renaissance and contemporary scholars. The book offers a historical survey of Hebrew instrumental music - its origins and links with neighbouring cultures, the role of instruments in the religious, social, public and private life of ancient Israel, and the system of musical education - and explores the understanding of Hebrew musical instruments in post-biblical times. This comprehensive volume will be invaluable to musicologists, archaeologists, theologians, historians, philologists and Bible translators, as well as general readers in the subject.... Examining the Roots of American Traditions

This book is a study of how congregational song developed and has been used in the worship of Western churches in general and specifically churches in the United States. Beginning with the worship of ancient peoples, the Hebrews, and early Christians and continuing to the present, the author examines historically how song has been and is used as an intentional sacred ritual action, like prayer or Scripture reading. Written primarily as an introductory text for college and seminary students, the overall goal is to make a historical journey with the people, events, and ideas from which have evolved the various types of song we have in American worship today. To help readers think more deeply about the material, study questions are given at the end of each chapter.... Download ebook, read file pdf

The Dictionary of the Bible and Ancient Media

The Dictionary of the Bible and Ancient Media is a convenient and authoritative reference tool, introducing specific terms and concepts helpful to the study of the Bible and related literature in ancient communications culture. Since the early 1980s, biblical scholars have begun to explore the potentials of interdisciplinary theories of oral tradition, oral performance, personal and collective memory, ancient literacy and scribality, visual culture and ritual. Over time these theories have been combined with considerations of critical and exegetical problems in the study of the Bible, the history of Israel, Christian origins, and rabbincs. The Dictionary of the Bible and Ancient Media responds to the rapid growth of the field by providing a source of reference that offers clear definitions, and in-depth discussions of relevant terms and concepts, and the relationships between them. The volume begins with an overview of ancient media
studies’ and a brief history of research to orient the reader to the field and the broader research context of the book, with individual entries on terms and topics commonly encountered in studies of the Bible in ancient media culture. Each entry defines the term/ concept under consideration, then offers more sustained discussion of the topic, paying particular attention to its relevance for the study of the Bible and related literature... T&T Clark Encyclopedia of Second Temple Judaism Volume Two

The T&T Clark Encyclopedia of Second Temple Judaism provides a comprehensive reference resource of over 600 scholarly articles aimed at scholars and students interested in Judaism of the Second Temple Period. The two-volume work is split into four parts. Part One offers a prolegomenon for the contemporary study and appreciation of Second Temple Judaism, locating the discipline in relation to other relevant fields (such as Hebrew Bible, Rabbinics, Christian Origins). Beginning with a discussion of terminology, the discussion suggests ways the Second Temple period may be described, and concludes by noting areas of study that challenge our perception of ancient Judaism. Part Two presents an overview of respective contexts of the discipline set within the broad framework of historical chronology corresponding to a set of full-colour, custom-designed maps. With distinct attention to primary sources, the author traces the development of historical, social, political, and religious developments from the time period following the exile in the late 6th century B.C.E. through to the end of the Bar Kokhba revolt (135 C.E.). Part Three focuses specifically on a wide selection of primary-source literature of Second Temple Judaism, summarizing the content of key texts, and examining their similarities and differences with other texts of the period. Essays here include a brief introduction to the work and a summary of its contents, as well as examination of critical issues such as date, provenance, location, language(s), and interpretative matters. The early reception history of texts is also considered, and followed by a bibliography specific to that essay. Numerous high-resolution manuscript images are utilized to illustrate distinct features of the texts. Part Four addresses topics relevant to the Second Temple Period such as places, practices, historical figures, concepts, and subjects of scholarly discussion. These are often supplemented by images, maps, drawings, or diagrams, some of which appear here for the first time. Copiously illustrated, carefully researched and meticulously referenced, this resource provides a reliable, up-to-date and complete guide for those studying early Judaism in its literary and historical settings.... Sourcebook for Research in Music, Third Edition
Since it was first published in 1993, the Sourcebook for Research in Music has become an invaluable resource in musical scholarship. The balance between depth of content and brevity of format makes it ideal for use as a textbook for students, a reference work for faculty and professional musicians, and as an aid for librarians. The introductory chapter includes a comprehensive list of bibliographical terms with definitions; bibliographic terms in German, French, and Italian; and the plan of the Library of Congress and the Dewey Decimal music classification systems. Integrating helpful commentary to instruct the reader on the scope and usefulness of specific items, this updated and expanded edition accounts for the rapid growth in new editions of standard works, in fields such as ethnomusicology, performance practice, women in music, popular music, education, business, and music technology. These enhancements to its already extensive bibliographies ensures that the Sourcebook will continue to be an indispensable reference for years to come. Download ebook, read file pdf

Sourcebook for Research in Music, Third Edition

Between Music and Philosophy

This book provides a new approach to the intersections between music and philosophy. It features articles that rethink the concepts of musical work and performance from ontological and epistemological perspectives and discuss issues of performing practices that involve the performer’s and listener’s perceptions. In philosophy, the notion of essence has enjoyed a renaissance. However, in the humanities in general, it is still viewed with suspicion. This collection examines the ideas of essence and context as they apply to music. A common concern when thinking of music in terms of essence is the plurality of music. There is also the worry that thinking in terms of essence might be an overly conservative way of imposing fixity on something that evolves. Some contend that we must take into account the varying historical and cultural contexts of music, and that the idea of an essence of music is therefore a fantasy. This book puts forward an innovative approach that effectively addresses these concerns. It shows that it is, in fact, possible to find commonalities among the many kinds of music. The coverage combines philosophical and musicological approaches with bioethics, biology, linguistics, communication theory, phenomenology, and cognitive science. The respective chapters, written by leading musicologists and philosophers, reconsider the fundamental essentialist and contextualist approaches to music creation and experience in light of twenty-first century paradigm shifts in music philosophy. Ancient Texts, Modern Challenges

The Bible contains a variety of passages that defend the poor and champion the cause of the oppressed, but are these ancient texts able to find a voice in confronting injustice in the modern world? 'Bible and Justice' examines the ways in which the Bible can speak to contemporary poverty, environmental issues, and state-sponsored violence, whilst exploring the difficulties that arise when ancient concepts of justice are applied to modern ideals. The book covers a range of topics from human rights to deaf biblical interpretation and from hospitality to corporate globalization. Broad and accessible, 'Bible and Justice' will be an invaluable resource for students of religious and biblical studies. Download ebook, read file pdf Ancient Texts,

This investigation demonstrates how music helped shape and define the self-identity of ancient Israel"--Provided by publisher.... Download ebook, read file pdf The Roles of Song in Ancient Israel

Biblical Resistance Hermeneutics within a Caribbean Context

The Bible is of central importance within Caribbean life but is rarely used as an agent for social change. Caribbean biblical hermeneutics focus more on the meaning of biblical texts for today and less on the context in which the texts themselves were written. 'Biblical Resistance Hermeneutics within a Caribbean Context' offers a biblical hermeneutic that acknowledges the importance of the socio-ideological interests, theological agendas, and social practices that produced the biblical texts, as well as the socio-cultural context of the contemporary reader. The book examines the social context of post-independence Caribbean and outlines the difficulties of biblical interpretation within Christian communities that descend from a history of slavery. Current hermeneutical practices in the Caribbean are critiqued and a biblical resistant reading offered that enables the Bible to be used as a cultural weapon of resistance....
