**Supplementary material**

**Figure S1:** Probability maps of subject-specific ROIs. **A.** MD ROIs on the left hemisphere (left), midline (middle) and right hemisphere (right). The color of each voxel indicates the number of participants for which the voxel was included in their 200-voxel subject-specific ROI. **B.** LOC ROIs. Same as in A, for 180-voxel subject-specific LOC ROIs. Vertical red line indicates division into pFs and LO.

A
