Supplementary Figure 2

A. Stimulation → Drug treatment
0 - 48 hours → 48 - 120 hours
0 h: BMMC isolation and CD8 cell depletion
48 h: CD138+ MM cell purification and cell seeding
120 h: CTG luminescence ATP assay

B. B. C.

C. Stimulation Drug treatment
0 - 48 hours → 48 - 120 hours
0 h: BMMC isolation and CD8 cell depletion
48 h: CD138+ MM cell purification and cell seeding
120 h: CTG luminescence ATP assay

D. Cell proliferation (CellTiter 96 assay)

E. CellTox-Green
