# Data Sharing Statement

| Item | Question                                                                 | Authors’ Response                                                                                   |
|------|--------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------|
| 1    | Would you like to share data collected for your study to others?         | Yes.                                                                                                |
| 2    | If not, would you like to share the reason for your decision?            | -                                                                                                   |
| 3    | What data in particular will be shared?                                  | The survival data in particular will be shared.                                                     |
| 4    | Any other documents will be shared? Such as study protocol, statistical  | With the consent of the ethics committee and researchers, we are willing to share the research        |
|      |   analysis plan, informed consent form, clinical study report, analytic  | scheme, statistical analysis scheme and analysis code.                                               |
|      |   code.                                                                   |                                                                                                     |
| 5    | When will data availability begin?                                       | The data can be shared after the fifth year of follow-up.                                           |
| 6    | When will data availability end?                                         | The data sharing can be ended after the tenth year of follow-up.                                    |
| 7    | To whom will you share the data?                                        | Surgeons and oncologists interested in comprehensive treatment of colorectal cancer.                |
| 8    | For what type of analysis or purpose?                                    | For meta-analysis.                                                                                  |
| 9    | How or where can the data/documents be obtained?                         | Emails could be sent to the address below to obtain the shared data:                                 |
|      |                                                                           | zhoujiam@mail.sysu.edu.cn                                                                          |
| 10   | Any other restrictions?                                                 | We may balance the potential benefits and risks for each request and then provide the data that    |
|      |                                                                           | could be shared                                                                                    |
