Figure S1 Mean corrected QT interval-time profile in cynomolgus monkeys. QTc, corrected QT interval.
**Table S1** Effects of bempedoic acid on hERG potassium current

| Compound               | Concentration, µM | Percent inhibition, mean ± SEM |
|------------------------|-------------------|--------------------------------|
| Bempedoic acid         | 0                 | 0.2 ± 0.7 (n = 3)              |
|                        | 10                | 1.6 ± 0.6 (n = 4)              |
|                        | 100               | 2.3 ± 0.9 (n = 3)              |
|                        | 300               | 1.7 ± 0.7 (n = 3)              |
|                        | 1000              | 5.4 ± 0.4 (n = 3)              |
| Terfenadine (positive control) | 0.060           | 80.6 ± 2.2b (n = 2)            |

hERG, human ether-a-go-go–related gene.

*a* Value statistically different than vehicle alone.

*b* Standard deviation.
