This article was published with an incorrect unit in Table 1.

In the text (p.110, Table 1)

Table 1. In vitro growth outcomes of preantral follicles according to different mouse age

| Variable                                      | Mice age (yr) |
|-----------------------------------------------|---------------|
|                                               | 4-5           |
|                                               | 7-8           |
|                                               | 10-11         |

The corrected Table is as follows:

Table 1. In vitro growth outcomes of preantral follicles according to different mouse age

| Variable                                      | Mice age (week-old) |
|-----------------------------------------------|---------------------|
|                                               | 4-5                 |
|                                               | 7-8                 |
|                                               | 10-11               |
