| Topic                     | Item | Checklist item description                                                                 | Reported on page |
|---------------------------|------|-------------------------------------------------------------------------------------------|------------------|
| Title                     | 1    | The words “case report” should be in the title along with what is of greatest interest in this case | Page 1           |
| Key Words                 | 2    | The key elements of this case in 2 to 5 key words                                          | Page 5           |
| Abstract                  | 3a   | Introduction—What is unique about this case? What does it add to the medical literature?   | N/A              |
|                           | 3b   | The main symptoms of the patient and the important clinical findings                      | Page 7           |
|                           | 3c   | The main diagnoses, therapeutics interventions, and outcomes                              | Page 8 to 10     |
|                           | 3d   | Conclusion—What are the main “take-away” lessons from this case?                          | Page 14          |
| Introduction              | 4    | Brief background summary of this case referencing the relevant medical literature          | Page 4           |
| Patient Information       | 5a   | Demographic information (such as age, gender, ethnicity, occupation)                       | Page 7           |
|                           | 5b   | Main symptoms of the patient (his or her chief complaints)                                 | Page 7           |
|                           | 5c   | Medical, family, and psychosocial history including co-morbidities, and relevant genetic information | Page 7           |
|                           | 5d   | Relevant past interventions and their outcomes                                             | Page 7           |
| Clinical Findings         | 6    | Describe the relevant physical examination (PE) findings                                   | N/A              |
| Timeline                  | 7    | Depict important milestones related to your diagnoses and interventions (table or figure)  | N/A              |
| Diagnostic Assessment     | 8a   | Diagnostic methods (such as PE, laboratory testing, imaging, questionnaires)               | Page 7 to 10     |
|                           | 8b   | Diagnostic challenges (such as financial, language, or cultural)                           | N/A              |
|                           | 8c   | Diagnostic reasoning including other diagnoses considered                                  | Page 7, 9 and 10  |
|                           | 8d   | Prognostic characteristics (such as staging in oncology) where applicable                   | Page 7           |
| Therapeutic Intervention  | 9a   | Types of intervention (such as pharmacologic, surgical, preventive, self-care)            | Page 8 to 10     |
|                           | 9b   | Administration of intervention (such as dosage, strength, duration)                        | Page 9           |
|                           | 9c   | Changes in intervention (with rationale)                                                   | Page 8           |
| Follow-up and Outcomes    | 10a  | Clinician-assessed outcomes and when appropriate patient-assessed outcomes                 | Page 8 and 10    |
|                           | 10b  | Important follow-up test results                                                           | Page 10          |
|                           | 10c  | Intervention adherence and tolerability (How was this assessed?)                           | N/A              |
|                           | 10d  | Adverse and unanticipated events                                                          | N/A              |
| Discussion                | 11a  | Discussion of the strengths and limitations in the management of this case                 | Page 12 to 14    |
|                           | 11b  | Discussion of the relevant medical literature                                             | Page 11 to 14    |
|                           | 11c  | The rationale for conclusions (including assessment of possible causes)                   | Page 14          |
|                           | 11d  | The main “take-away” lessons of this case report                                          | Page 13 and 14   |
| Patient Perspective       | 12   | Did the patient share his or her perspective or experience? (Include when appropriate)    | N/A              |
| Informed Consent          | 13   | Did the patient give informed consent? Please provide if requested                         | Yes _ √_ No ___  |

*CARE Checklist (2013) of information to include when writing a case report*
