Supplementary Table 1. Shapiro-Francia normality test results for continuous variables

| Variables                  | $W'$  | $V'$  | z     | Prob>|z|
|----------------------------|-------|-------|-------|-------|
| Age                       | 0.98206 | 74.865 | 11.189 | 0.00001 |
| Cigarette use per day     | 0.93209 | 283.373 | 14.639 | 0.00001 |
| Fagerström score          | 0.99229 | 32.175 | 8.999 | 0.00001 |
| Importance                | 0.97859 | 87.983 | 11.595 | 0.00001 |
| Difficulty                | 0.82989 | 699.568 | 16.966 | 0.00001 |
| Confident                 | 0.92114 | 324.096 | 14.973 | 0.00001 |
| Number of quit attempts   | 0.39838 | 2501.883 | 20.282 | 0.00001 |

1 Shapiro-Francia test statistics. 2 Indices for departure from normality.
