III. METHODOLOGY

This study made use of the descriptive normative research to determine the increasing popularity of milk tea industry in the areas of Bongabon, Nueva Ecija. This method quantitatively describes specific details of specific groups.

The research instrument used in this study was survey method wherein the respondents answered questions administered through questionnaires and interviews.

The instrument was formulated in the modified 4-point likert-scale ranging from strongly agree (4), agree (3), disagree (2), strongly disagree (1). Respondents were then instructed to rate the statements and answer the questions.

The data collected from the locale were encoded, tallied and analyzed. The following statistical tools were used. Data presentation of the given scale was used to interpret the results of the information gathered:

To determine the respondents degree of perception the weighted mean was computed using the formula: Weighted mean (∑ WM) is equal to total weighted frequency (∑WF) divided by the total number of cases (F).

The percentage frequency distribution was computed using the formula: frequency (F) divided by the sample (N) and multiply by one hundred (100). The researcher used ranking to compare items to each other by placing them in order of preferences.

IV. RESULTS AND DISCUSSION

According to the gathered data:

Table 1: Demographic Profile According to Sex

| PROFILE VARIABLE | F  | %  |
|------------------|----|----|
| SEX              |    |    |
| MALE             | 2  | 25%|
| FEMALE           | 6  | 75%|

Table 1 shows the demographic profile of the respondents in terms of sex. Majority of the respondents who participated in the interview were females with a number of six (6) or seventy-five percent (75%) outsourcing the number of two (2) or twenty-five percent (25%) that males emerged on.

Generally, Municipality of Bongabon is dominated by males but females are more interested in managing the milk tea business.

Table 2. Demographic Profile According to Age

| PROFILE VARIABLE | F  | %  |
|------------------|----|----|
| AGE             |    |    |
| 15 – 25         | 3  | 38%|
| 26 – 35         | 1  | 12%|
| 36 – 45         | 3  | 38%|
| 46 – 55         | 1  | 12%|
| 55 up           | 0  | 0% |

For the age range of the respondents, Table 2 presents the age range of fifteen to twenty five (15-25) and thirty six to forty five (36-45) years of age comprised thirty eight percent (38%) of the respondents. They formed the majority group and were followed by the group that belonged to the age range of twenty six to thirty five (26-35) and forty six to fifty five (46-55) years of age who comprised the next highest percentage of twelve percent (12%).

The above findings indicated that majority of the respondents were in the age of 15-25 years old and 36-45 years old followed by 26-35 and 46-55 years old. These findings point to the fact that the respondents are more teenagers and middle-aged adults. During the interview conducted, the respondents who are teenagers said that their love for the milk tea was the reason why they put up milk tea business. On the other hand, middle-aged adults said that the trend of milk tea products was their reason to put up this kind of business.

Local milk tea shops are emerging everywhere, taking advantage of the craze and catering to the taste of teenagers and young adults.

Table 3. Demographic Profile According to Civil Status

| PROFILE VARIABLE | F  | %  |
|------------------|----|----|
| CIVIL STATUS     |    |    |
| Single           | 5  | 63%|
| Married          | 2  | 25%|
| Widow/Widower    | 1  | 12%|
| Separated        | 0  | 0% |

Table 3 visualizes the business profile of the respondents in terms of the civil status wherein the most number of respondents were
single with five (5) individuals or sixty three percent (63%). And those who were widow or widower were least in number with one (1) person obtaining twelve percent (12%) of the respondents.

Majority of the respondents were single because of age reason, 15 years old and above. Single individuals are more likely to invest in a milk tea business. On the interview conducted, they said that the increasing popularity of milk tea was the reason why they put up this kind of business. They also said that massive number of students getting in on the trend, buying milk tea allowed milk tea shops to thrive.

Table 4. Business Profile According to Years of Operation

| PROFILE VARIABLE | F | %  |
|------------------|---|----|
| YEARS OF OPERATION |   |    |
| Less than 1 year  | 7 | 88%|
| 1-2 years        | 1 | 12%|
| 3-4 years        | 0 | 0% |
| 5-6 years        | 0 | 0% |
| 7-above          | 0 | 0% |

Table 5 visualizes the business profile of the respondents in terms of types of ownership wherein sole proprietorship and partnership had the same number of respondents with four (4) individuals or fifty percent (50%) respectively.

The findings indicated that majority of the business owners were sole proprietorship and partnership. These findings point to the fact that commonly the owner of the milk tea business was sole proprietor or partnership.

Table 6. Business Profile According to Average Monthly Income

| PROFILE VARIABLE | F | %  |
|------------------|---|----|
| AVERAGE MONTHLY INCOME | |    |
| ₱5,000-10,000    | 0 | 0% |
| ₱15,000-20,000   | 2 | 25%|
| ₱25,000-30,000   | 2 | 25%|
| ₱35,000-40,000   | 1 | 12%|
| ₱45,000-90,000   | 3 | 38%|

Table 6 visualizes the business profile of the respondents in terms of average monthly income wherein forty-five thousand to ninety thousand pesos (₱45,000-90,000) or thirty eight percent (38%) of the respondents. They formed the majority group and were followed by the fifteen to twenty thousand pesos (₱15,000-20,000) and twenty five to thirty thousand pesos (₱25,000-30,000) or twenty five percent (25%) of the respondents. And thirty-five to forty thousand pesos (₱35,000-40,000) were least in number with one (1) person obtaining twelve percent (12%) of the respondents.

The above findings indicated that the common average monthly income of the milk tea business range from forty five to ninety thousand pesos (₱45,000-90,000). These findings point to the fact that number of milk tea fans keep growing as milk tea shops keep popping up. Love for milk tea is at an all-time high.

The researcher used ranking to compare items to each other by placing them in order of preferences. The first SWOT analysis of the business is strength. The researchers found out
that the convenient and fast service, quality ingredients, and loyal customers are the top priority to be considered in a milk tea industry. The milk tea shop owners are highly considered the convenient and fast service, quality ingredients, and loyal customers as the strength of their business. Marketing strategy, discount promos, innovation in the product and long operating hours are among the top three strength of the milk tea business.

The second SWOT analysis of the business is weaknesses. The researchers found out that during rainy season the revenue of the milk tea business were decreasing. Many competitors within the area and rental fees are also their weaknesses. These findings pointed the fact that rainy season, many competitors and the rental fee has a huge effect on the milk tea business in terms of their income.

The third SWOT analysis of the business is opportunity. One of the opportunities that can help a milk tea business is to create more loyal customers. Trendy product, new product to introduce, innovative technology are also the factors that can help the business to grow.

And the last SWOT analysis of the business is threats. Seasonal demand, the rainy season and summer season, many competitors, similar concept or service and price war has an effect in a milk tea industry. These findings pointed the fact that the weakness of the milk tea business is also the threats that can affect their business in terms of their income.

Based from the findings and conclusions presented, the following are the recommendations:

1. For the SMEs, it is recommended to ensure high quality of products on top of good customer service or relation to achieve sustainability.
2. For the LGUs, security must be observed, since it is one of the best assets of a company.
3. For the DTI, the main economic catalyst that enables innovative, competitive, job generating inclusive business, and empowers consumers helps the business to be more effective and efficient.
4. For the marketing professionals, it is recommended to offer different promotional discounts (like offering loyalty cards, discount coupons, vouchers, etc.) as part of the marketing strategy to increase the demand for the product.
5. For the Milk tea industry, it is recommended to provide more varieties of milk tea to the customers (like twist of flavor, offering small cups of milk tea for affordable or cheapest price, etc.) for them to have a wider selection of choices. It should be done because of fast changing preference of the generations. Innovation is one of the strength of the milk tea business. Businesses should continue developing products according to consumers’ preference. Hence, regular assessment should be done regularly.
6. The Milk tea industry should regularly get feedback from their customers and implement innovations to their products always to ensure continued patronage and can be used as SWOT Assessment.
7. For the Milk tea industry it is recommended to provide excellent services to gain positive purchasing experience to the consumers, by doing this it may lead in increase of consumers and create loyal customers.
8. The Milk tea industry should make the atmosphere and decorations of the shop appealing to the public and ensure the safety of the consumers, it is a way of creating loyal consumers.
9. The Milk tea industry should consider the location of the shop that are accessible and can be easily seen by the customers. Some customers who experience difficulty in parking will leave the shop and lead in sales decrease.
10. Seasonal demand is one of the threats of the milk tea business, it is recommended to produce hot tea products (like hot coffee, hot chocolate, etc.) for consumers to maintain high volume of customers even during rainy season.
11. A similar study should also be conducted for other business sectors to assess their marketing strategy and develop a feasibility plan.
12. This study could serve as a basis for further business researches.
