| Section/topic | Item No | Checklist item | Reported on Page Number/Line Number | Reported on Section/Paragraph |
|---------------|---------|----------------|------------------------------------|------------------------------|
| **TITLE**     |         |                |                                    |                              |
| Title         | 1       | Identify the report as a systematic review. | Page 1, Line 1-2 | Title page               |
| **ABSTRACT**  |         |                |                                    |                              |
| Abstract      | 2       | See the PRISMA 2020 for Abstracts checklist (Table 2). | Page 2, Line 30-47 | Abstract                 |
| **INTRODUCTION** |       |                |                                    |                              |
| Rationale     | 3       | Describe the rationale for the review in the context of existing knowledge. | Page 3, Line 56-78 | Introduction, Paragraph 1-5 |
| Objectives    | 4       | Provide an explicit statement of the objective(s) or question(s) the review addresses. | Page 3, Line 79-82 | Introduction, Paragraph 6 |
| **METHODS**   |         |                |                                    |                              |
| Eligibility criteria | 5 | Specify the inclusion and exclusion criteria for the review and how studies were grouped for the syntheses. | Page 4, Line 88-94 | Methods, Paragraph 2.4 |
| Information sources | 6 | Specify all databases, registers, websites, organisations, reference lists and other sources searched or consulted to identify studies. Specify the date when each source was last searched or consulted. | Page 4, Line 96 | Methods, Paragraph 3 |
| Search strategy | 7 | Present the full search strategies for all databases, registers and websites, including any filters and limits used. | Page 4, Line 97-100 | Methods, Paragraph 3 |
| Selection process | 8 | Specify the methods used to decide whether a study met the inclusion criteria of the review, including how many reviewers screened each record and each report retrieved, whether they worked independently, and if applicable, details of automation tools used in the process. | Page 4, Line 102-106 | Methods, Paragraph 4 |
| Data collection process | 9 | Specify the methods used to collect data from reports, including how many reviewers collected data from each report, whether they worked independently, any processes for obtaining or confirming data from study investigators, and if applicable, details of automation tools used in the process. | Page 4-5, Line 108-111 | Methods, Paragraph 5 |
| Data items    | 10a     | List and define all outcomes for which data were sought. Specify whether all results that were compatible with each outcome domain in each study were sought (e.g. for all measures, time points, analyses), and if not, the methods used to decide which results to collect. | Page 4, Line 92-93 | Table 4 |
|               | 10b     | List and define all other variables for which data were sought (e.g. participant and intervention characteristics, funding sources). Describe any assumptions made about any missing or unclear information. | Page 4, Line 90-91, 94 | Table 3 |
| Study risk of bias assessment | 11 Specify the methods used to assess risk of bias in the included studies, including details of the tool(s) used, how many reviewers assessed each study and whether they worked independently, and if applicable, details of automation tools used in the process. | Page 4-5, Line 108-111 | Methods, Paragraph 5 |
|---|---|---|---|
| Effect measures | 12 Specify for each outcome the effect measure(s) (e.g. risk ratio, mean difference) used in the synthesis or presentation of results. | N/A | This study was not conducted a meta-analysis |
| Synthesis methods | 13a Describe the processes used to decide which studies were eligible for each synthesis. | N/A | This study was not |
| | 13b Describe any methods required to prepare the data for presentation or synthesis, such as handling of missing summary statistics, or data conversions. | N/A | This study was not conducted a meta-analysis |
| | 13c Describe any methods used to tabulate or visually display results of individual studies and syntheses. | N/A | This study was not |
| | 13d Describe any methods used to synthesize results and provide a rationale for the choice(s). If meta-analysis was performed, describe the model(s), method(s) to identify the presence and extent of statistical heterogeneity, and software package(s) used. | N/A | This study was not conducted a meta-analysis |
| | 13e Describe any methods used to explore possible causes of heterogeneity among study results. | N/A | This study was not |
| | 13f Describe any sensitivity analyses conducted to assess robustness of the synthesized results. | N/A | This study was not |
| Reporting bias assessment | 14 Describe any methods used to assess risk of bias due to missing results in a synthesis (arising from reporting biases). | N/A | This study was not conducted a meta-analysis |
| Certainty assessment | 15 Describe any methods used to assess certainty (or confidence) in the body of evidence for an outcome. | Page 5, Line 113-115 | Methods, paragraph 6, Table 1 |

### RESULTS

| Study selection | 16a Describe the results of the search and selection process, from the number of records identified in the search to the number of studies included in the review, ideally using a flow diagram. | Page 5, Line 121-123 | Figure 1 |
|---|---|---|---|
| | 16b Cite studies that met many but not all inclusion criteria ('near-misses') and explain why they were excluded. | Page 5, Line 127-129 | Figure 1 |
| Study characteristics | 17 Cite each included study and present its characteristics. | Page 5, Line 125-127 | Results, Paragraph 2 |
| Risk of bias in studies | 18 Present assessments of risk of bias for each included study. | N/A | Three authors checked inclusion criteria |
| Results of individual studies | 19 For all outcomes, present, for each study: (a) summary statistics for each group (where appropriate) and (b) an effect estimate and its precision (e.g. confidence/credible interval), ideally using structured tables or plots. | Page 5-6, Line 130-168 | Results, Paragraph 3-6 |
| Results of syntheses | 20a | For each synthesis, briefly summarise the characteristics and risk of bias among contributing studies. | N/A | This study was not |
|----------------------|-----|--------------------------------------------------------------------------------------------------|-----|-------------------|
| 20b                  |     | Present results of all statistical syntheses conducted. If meta-analysis was done, present for each the summary estimate and its precision (e.g. confidence/credible interval) and measures of statistical heterogeneity. If comparing groups, describe the direction of the effect. | N/A | This study was not conducted a meta-analysis |
| 20c                  |     | Present results of all investigations of possible causes of heterogeneity among study results. | N/A | This study was not |
| 20d                  |     | Present results of all sensitivity analyses conducted to assess the robustness of the synthesized results. | N/A | This study was not |
| Reporting biases     | 21  | Present assessments of risk of bias due to missing results (arising from reporting biases) for each synthesis assessed. | N/A | This study was not conducted a meta-analysis |
| Certainty of evidence| 22  | Present assessments of certainty (or confidence) in the body of evidence for each outcome assessed. | N/A | This study was not conducted a meta-analysis |

**DISCUSSION**

| Discussion          | 23a | Provide a general interpretation of the results in the context of other evidence. | Page 7, Line 170-171 | Discussion, Paragraph 1 |
|---------------------|-----|--------------------------------------------------------------------------------|----------------------|-------------------------|
| 23b                 |     | Discuss any limitations of the evidence included in the review. | Page 7-10, Line 188-189, | Discussion, Paragraph |
| 23c                 |     | Discuss any limitations of the review processes used. | Page 10, Line 261-268 | Discussion, Paragraph 8 |
| 23d                 |     | Discuss implications of the results for practice, policy, and future research. | Page 10, Line 270-273 | Discussion, Paragraph 9 |

**OTHER INFORMATION**

| Registration and protocol | 24a | Provide registration information for the review, including register name and registration number, or state that the review was not registered. | Page 4, Line 85-86 | Method, Paragraph 1 |
|---------------------------|-----|-----------------------------------------------------------------------------------------------------------------|-------------------|-------------------|
| 24b                       |     | Indicate where the review protocol can be accessed, or state that a protocol was not prepared. | Page 4 Line 85 | Method, Paragraph 1 |
| 24c                       |     | Describe and explain any amendments to information provided at registration or in the protocol. | Page 4, Line 58 | Method, Paragraph 1 |
| Support                   | 25  | Describe sources of financial or non-financial support for the review, and the role of the funders or sponsors in the review. | Page 1, Line 21 | Title page |
| Competing interests       | 26  | Declare any competing interests of review authors. | Page 10, Line 277 | Footnote |
| Availability of data, code and other materials | 27  | Report which of the following are publicly available and where they can be found: template data collection forms; data extracted from included studies; data used for all analyses; analytic code; any other materials used in the review. | N/A | This study was not conducted a meta-analysis |
| Section/topic | Item No | Checklist item                                                                 | Reported on Page Number/Line Number | Reported on Section/Paragraph |
|--------------|---------|--------------------------------------------------------------------------------|-------------------------------------|------------------------------|
| TITLE        |         |                                                                                 |                                     |                              |
| Title        | 1       | Identify the report as a systematic review.                                    | Page 1, Line 1-2                    | Title page                   |
| BACKGROUND   |         |                                                                                 |                                     |                              |
| Objectives   | 2       | Provide an explicit statement of the main objective(s) or question(s) the review addresses. | Page 3, Line 79-82 | Introduction, Paragraph 6   |
| METHODS      |         |                                                                                 |                                     |                              |
| Eligibility criteria | 3 | Specify the inclusion and exclusion criteria for the review.                   | Page 4, Line 88-94 | Methods, Paragraph 2,4       |
| Information sources | 4 | Specify the information sources (e.g. databases, registers) used to identify studies and the date when each was last searched. | Page 4, Line 96 | Methods, Paragraph 3         |
| Risk of bias | 5       | Specify the methods used to assess risk of bias in the included studies.        | Page 4, Line 93-97 | Methods, Paragraph 5         |
| Synthesis of results | 6 | Specify the methods used to present and synthesize results.                    | Page 4, Line 104-105 | Methods, paragraph 7         |
| RESULTS      |         |                                                                                 |                                     |                              |
| Included studies | 7 | Give the total number of included studies and participants and summarise relevant characteristics of studies. | Page 5, Line 127-129 | Table 2                      |
| Synthesis of results | 8 | Present results for main outcomes, preferably indicating the number of included studies and participants for each. If meta-analysis was done, report the summary estimate and confidence/credible interval. If comparing groups, indicate the direction of the effect (i.e. which group is favoured). | Page 4, Line 104-105 | Methods, paragraph 7         |
| DISCUSSION   |         |                                                                                 |                                     |                              |
| Limitations of evidence | 9 | Provide a brief summary of the limitations of the evidence included in the review (e.g. study risk of bias, inconsistency and imprecision). | Page 7-10, Line 188-189, 240-241, 258-259 | Discussion, Paragraph 2,6,7 |
| Interpretation | 10 | Provide a general interpretation of the results and important implications.     | Page 7, Line 170-171 | Discussion, Paragraph 1     |
| OTHER        |         |                                                                                 |                                     |                              |
| Funding      | 11      | Specify the primary source of funding for the review.                          | Page 1, Line 21                    | Title page                   |
| Registration | 12      | Provide the register name and registration number.                              | Page 4, Line 85                    | Methods, Paragraph 1         |
