Comments to the Author(s)
I am satisfied with the authors' edits addressing my concerns about the paper. Well done.

Decision letter (RSOS-201222.R0)

We hope you are keeping well at this difficult and unusual time. We continue to value your support of the journal in these challenging circumstances. If Royal Society Open Science can assist you at all, please don't hesitate to let us know at the email address below.

Dear Dr Muijres,

It is a pleasure to accept your manuscript entitled "Varroa destructor infestation impairs the improvement of landing performance in foraging honeybees" in its current form for publication in Royal Society Open Science. The comments of the reviewers who reviewed your manuscript are included at the foot of this letter.

You can expect to receive a proof of your article in the near future. Please contact the editorial office (openscience_proofs@royalsociety.org) and the production office (openscience@royalsociety.org) to let us know if you are likely to be away from e-mail contact -- if you are going to be away, please nominate a co-author (if available) to manage the proofing process, and ensure they are copied into your email to the journal.

Due to rapid publication and an extremely tight schedule, if comments are not received, your paper may experience a delay in publication.
Additionally, we note that the following email addressed is marked as 'invalid'. Please kindly provide the correct email address for the following co-author, in reply to this email:

heleen.lugt@wur.nl

Please see the Royal Society Publishing guidance on how you may share your accepted author manuscript at https://royalsociety.org/journals/ethics-policies/media-embargo/.

Thank you for your fine contribution. On behalf of the Editors of Royal Society Open Science, we look forward to your continued contributions to the Journal.

Best regards,

Lianne Parkhouse
Editorial Coordinator
Royal Society Open Science
openscience@royalsociety.org

on behalf of Dr Jake Socha (Associate Editor) and Professor Kevin Padian (Subject Editor).

Associate Editor Dr Jake Socha Comments to Author:

The previous reviewers (from the previous submission at Proceedings B) were both fully satisfied with the new revisions in response to their comments. This paper is a solid contribution that improves our understanding of the biomechanics and ecological context of flight in bees. Congratulations!
