After the publication of this paper, the authors have realized that eq. (3) on page 4,

\[ P_{\text{plec}} \sim (k_B T L_p \Delta \omega)^{4/3} (\eta L)^{1/3}, \]

contained a mistake. The correct form of this equation should read as follows:

\[ P_{\text{plec}} \sim (k_B T L_p)^{2/3} (\eta L)^{1/3} (\Delta \omega)^{4/3}. \]

The other equations are correct, and the conclusions of the article remain unchanged.

***

The authors thank E. Fillippidi for bringing this mistake to their attention.
