Editor-in-Chief

Prof. Alicia Esther Ares  National University of Misiones, Argentina

Editorial Board

Prof. Salah Aida  University of Constantine, Algeria
Prof. Arul C. Arjunan  Sinmat Inc., USA
Dr. Margarida Fardilha  University of Aveiro, Portugal
Dr. Majid Ghashang  Islamic Azad University, Iran
Prof. Shushen Lu  Sun Yat-sen University, China
Prof. Krishna C. Mandal  University of South Carolina, USA
Prof. Bouzid Menaa  Fluorotronics Inc., USA
Dr. Radoljub I. Ristic  University of Sheffield, UK
Prof. Camillo Rosano  National Institute for Cancer Research, Italy
Prof. Garth Simpson  Purdue University, USA
Prof. Vitalyi Igorevich Tatanin  Zaporozhye Institute of Economics and Information Technologies, Ukraine
Prof. Rina Tannenbaum  University of Alabama at Birmingham, UK
Dr. Ramaiyer Venkatraman  Jackson State University, USA
Prof. Sunil Verma  Raja Ramanna Centre for Advanced Technology, India
Synthesis, Characterization and Crystal Structures of Zwitterionic Triazolato Complexes by Reaction of a Ruthenium Azido Complex with Excess Ethyl Propiolate

C.-W. Chang, C.-R. Lee, G.-H. Lee

Journal of Crystallization Process and Technology (JCPT)

Journal Information

SUBSCRIPTIONS

The *Journal of Crystallization Process and Technology* (Online at Scientific Research Publishing, https://www.scirp.org/) is published quarterly by Scientific Research Publishing, Inc., USA.

Subscription rates:
Print: $69 per issue.
To subscribe, please contact Journals Subscriptions Department, E-mail: sub@scirp.org

If expert assistance is required, the services of a competent professional person should be sought.

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: jcpt@scirp.org
Journal of Crystallization Process and Technology (JCPT) is an open access journal accessible for free on the Internet. At Scientific Research Publishing (SCIRP), we guarantee that no university library or individual reader will ever have to buy a subscription or pay any pay-per-view fees to access articles in the electronic version of the journal.

Journal of Crystallization Process and Technology (JCPT) is an international, specialized, English-language journal devoted to publication of original contributions concerning with the crystallization process, studies and properties of the crystalline materials. It covers the basic sciences, engineering aspects and applied technology of crystals and crystallization processes, both the experimental and theoretical aspects including physical, chemical, and biological phenomena and processes related to the design, growth, and application of crystalline materials. The journal publishes original papers including but not limited to the following fields:

- Apparatus, Instrumentation and Techniques for Crystal Growth, and Purification Methods
- Biological Substances Crystallization
- Biomineralization
- Characterization by Physical and Chemical Methods
- Characterization of Single Crystals
- Crystal Growth of Metals
- Crystal Growth of Minerals
- Crystal Growth of Semiconductors
- Crystal Growth of Superconductors
- Crystallization as Bulk or Thin Films
- Crystallization in Glasses
- Crystallization in Polymers, Liquid Crystals Crystallization in Sol-Gel Glasses and Viscous Media
- Crystallization Processes including among Others Chemical Vapor Deposition, Hydrothermal, Organic, Solvent and Solvent-Free Processes
- Crystals Growth, Design and Properties for Applications in Medical Sciences with Organic
- Directional Growing
- Intermolecular Interactions in the Solid State
- Modeling of Crystal Growth Processes
- Nucleation Theory
- Opto-Electronics with Semiconductors, Superconductors, Magnetics, Inorganic Inorganic-Organic Hybrid Materials Crystallization
- Purification Methods
- Transport Phenomena in Crystal Growth

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail

What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
