# TABLE OF CONTENTS

**Volume 2  Number 8  August 2011**

| Title                                                                 | Authors                                                                 | Pages |
|----------------------------------------------------------------------|-------------------------------------------------------------------------|-------|
| A Study on Preparation and Use of Nano Poly Pyrrole and Nano Poly   | B. Muralidharan, G. Gopu, S. Laya, C. Vedhi, P. Manisankar.               | 957   |
| (3,4-Ethylene dioxythiophene) Coated Glassy Carbon Electrode for the |                                                                       |       |
| Determination of Antihistamine in Pharmaceutical and Urine Sample   |                                                                       |       |
| Hydrothermal Synthesis of V₃O₇·H₂O Nanobelts and Study of Their    | M. K. Chine, F. Sediri, N. Gharbi.                                      | 964   |
| Electrochemical Properties                                          |                                                                       |       |
| Nanostructures on Surface of SrTiO₃ Single Crystals Treated by      | N. Kulagin, J. Dojcilovic, E. Hieckmann.                                 | 971   |
| Plasma                                                              |                                                                       |       |
| Preparation of Copper (Cu) and Copper Oxide (Cu₂O) Nanoparticles    | M. A. Shah, M. S. A.-Farah.                                             | 977   |
| under Supercritical Conditions                                      |                                                                       |       |
| Application of Statistical Design Strategies to Optimize the        | R. Mohamed, I. Mkhalid, A. Azaam.                                       | 981   |
| Preparation of CuO Nanoparticles by Hydrothermal Technique          |                                                                       |       |
| A Study of the Optical Properties in ZnWO₄ Nanorods Synthesized by  | N. V. Minh, N. M. Hung.                                                 | 988   |
| Hydrothermal Method                                                 |                                                                       |       |
| Investigation of Electrical Transport in PECVD Grown a-SiCₓ:H Thin  | O. Özdemir, K. Bozkurt, K. Kutlu.                                        | 993   |
| Film                                                                |                                                                       |       |
| Schottky Barriers on Layered Anisotropic Semiconductor—WSe₂—with    | A. J. Mathai, C. K. Sumesh, B. P. Modi.                                  | 1000  |
| 1000 Å Indium Metal Thickness                                        |                                                                       |       |
| Preparation and Characterization of Poly(divinylbenzene) Microcapsules Containing Octadecane | P. Chaiyasat, A. Chaiyasat, W. Boontung, S. Promdsorn, S. Thipsit.       | 1007  |
| Synthesis and Properties of Polythiophène Benzylidene and Their    | R. B. Abdelkarim, A. Yahiaoui, A. Hachemaoui, M. Belbachir, A. Khelil.  | 1014  |
| Photovoltaic Applications                                            |                                                                       |       |
| Investigation of Poly aniline Thin Film and Schottky Junction with  | P. J. Saikia, P. C. Sarmah.                                             | 1022  |
| Aluminium for Electrical and Optical Characterization                |                                                                       |       |
| Crack-Tip Stress Analysis at a Bi-Material Interface by Photoelastic, Isopachtic and FEA | G. A. Papadopoulos, E. B. Bouloukou, E. G. Papadopoulos.                 | 1027  |
| Optical Microscopy as a Tool to Correlate Morphology and Thermal   | L. C. Mendes, P. S. da C. Pereira.                                      | 1033  |
| Properties of Extruded PET/PC Reactive Blends                       |                                                                       |       |
| Short Circuit Thermally Stimulated Discharge Current Measurement    | A. K. Gupta, A. Tiwari, R. Bajpai, J. M. Keller.                         | 1041  |
| on PMMA:PEMA:PVDF Ternary Blends                                    |                                                                       |       |
| DC Conductivity and Spectroscopic Characterization of Poly (o-toluidine) Doped with Binary Dopant | K. Kumari, V. Ali, G. Rani, S. Kumar, G. B. V. S. Lakshmi, M. Zulfiequar | 1049  |
Materials Sciences and Application, 2011, 2, 957-1174
Published Online August 2011 in SciRes (http://www.SciRP.org/journal/msa/)

Hydrogels from Chitosan and a Novel Copolymer Poly(N-Vinyl-2-Pyrrolidone-Co-Acrolein)
J. A. G. Barros, A. J. C. Brant, L. H. Catalani.................................................................1058

Effects of Methacrylic Acid on Physical/Mechanical Properties and Biocompatibility of Urethane-Based Denture Biomaterials
Z. B. Cao, X. B. Sun, C.-K. Yeh, Y. Y. Sun........................................................................1070

Indentation Creep Behavior and Microstructure of Cu-Ge Ferrites
H. M. Zaki, A. M. Abdel-Daiema, Y. I. Swilema, F. El-Tantawy, F. M. Al-Marzoukia, A. A. Al-Ghamdia, S. Al-Henitia,
F. Said, Al-Hazmia, T. S. Al-Harbi....................................................................................1076

Electrical Transport Properties of Bi2O3-Doped CoFe2O4 and CoHo0.82Fe1.96O4 Ferrites
H. M. Khan, Mishbah-ul-Islam, I. Ali, M. ul-din Rana................................................................1083

Structural and Electrical Properties of Niobium Doped Y0.6Gd0.4Ba2-xNbxCu3O7-y Superconductors
M. Yilmaz, O. Dogan........................................................................................................1116

Effect of Oxalate Precursor Formation Temperature on Magnetic Properties of NiCuZn Ferrites
N. S. Shinde, S. S. Khot, B. P. Ladgaonkar, B. B. Kale, S. Apte, P. M. Tamhankar, S. C. Watawe.....................1097

Growth Kinetics of Nd2Fe14B Phase during Hydrogen-Induced Reverse Phase Transformation in Nd2Fe14B Type Nanocrystalline Magnetic Alloy
S. B. Rybalka.................................................................................................................1109

Significance of Alloying Element Levels in Realizing the Specified Tensile Properties in 18 wt% Nickel Maraging Steel
M. N. Rao, K. Sivasubramanian..........................................................................................1116

Electronic States in Trans-CoCl2(H2O)4 Complex
H. Souissi, S. Kammoun.....................................................................................................1121

Hot Forging and Hot Pressing of AlSi Powder Compared to Conventional Powder Metallurgy Route
S. Moustafa, W. Daoush, A. Ibrahim, E. Neubauer................................................................1127

Flame Retardancy Enhancement of Hybrid Composite Material by Using Inorganic Retardants
M. Al-Maamori, A. Al-Mosawi, A. Hashim.......................................................................1134

Alloying Behaviour of CuPd Liquid Alloy
B. P. Singh, D. Adhikari, I. S. Jha, J. Kumar, R. P. Koirala..................................................1139

Foundry Coating Technology: A Review
U. C. Nwaogu, N. S. Tiedje..............................................................................................1143

Spectral Properties and Parameters Calculation of Er:LiGdF4 Crystal
C. Li, Y. Zhang, X. J. Zhang, D. W. Miao, H. Lin, M. Tonelli, F. M. Zeng, J. H. Liu.................................1161

Theoretical Study of the Rare Earth Compounds LaFe13-xTx (T = Cr, Cu, Ga, Mn, Ni) and Curie Temperature Variation
L. P. Xiao, J. Shen.............................................................................................................1166

Materials Sciences and Applications

ISSN 2153-117X (Print)  ISSN 2153-1188 (Online)
http://www.scirp.org/journal/msa

Materials Sciences and Applications (MSA) is an international refereed journal dedicated to the latest advancement of materials. The goal of this journal is to keep a record of the state-of-the-art research and promote the research work in these fast moving areas.

Editor-in-Chief
Prof. Young W. Kwon
Naval Postgraduate School, USA

Editorial Board
Prof. Alaa S. Abd-El-Aziz
Prof. Samir A. Abdel-Latif
Dr. John Abraham St. Thomas
Prof. Alexander Bagatur'yants
Prof. Huan-Tsong Chang
Dr. Dianyong Chen
Prof. Ram N. P. Choudhary
Prof. Rob Krams
Prof. Qiming Liu
Prof. Athanasios G. Mamalis
Prof. Paolo Maria Mariano
Prof. Chunxu Pan
Prof. Su-Seng Pang
Prof. Alessandro Pegoretti
Prof. Alexander Potapov
Dr. Raj Pal Singh
Prof. Anupam Srivastav
Dr. Deepak Srivastava
Prof. Mustafa Übeyli
Prof. Gayle E. Woloschak
Prof. Dongfeng Xue
Dr. Raghvendra Singh Yadav
Dr. Fei Zhang

Subject Coverage
This journal invites original research and review papers that address the following issues in materials sciences and applications. Topics of interest include, but are not limited to:

- Biological, Biomechanical and Biomedical Materials
- Composite Materials
- Electrical and Electronics Materials
- Fibers and Matrix Materials
- Functional Materials, including Shape Memory Materials, Self Healing Materials, etc.
- Light Emitting Material
- Magnetic Material
- Materials Chemistry
- Metals and Alloys
- Nanocomposites
- Nanomaterials including Nanostructured and Nanoscale Materials
- Nanosensors
- Nanostructured Materials
- Organic Materials
- Physics, Chemistry, Mechanics and Applications in Materials Science
- Rubber/Elastomeric Materials
- Semiconductor Materials
- Textile Materials
- Thin Film and Coatings

We are also interested in: 1) Short Reports — 2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
