Supplementary Figure 5: CMTM6 was closely related to immune functions in pMMR CRC. (A) CMTM6 was highly expressed in dMMR CRC compared with pMMR CRC \( (p < 0.001) \). (B) The relative levels comparison of different immune cell types between CMTM6 low (green) and CMTM6 high (red) group of dMMR CRC. (C) The relative levels comparison of different immune cell types between CMTM6 low (green) and CMTM6 high (red) group of pMMR CRC.
