# Data Sharing Statement

| Item | Question                                                                 | Authors’ Response (place “-” if not applicable) |
|------|---------------------------------------------------------------------------|------------------------------------------------|
| 1    | Would you like to share data collected for your study to others?         | Yes                                             |
| 2    | If not, would you like to share the reason for your decision?            | -                                               |
| 3    | What data in particular will be shared?                                   | We declared that materials described in the     |
|      |                                                                           | manuscript, including all relevant raw data,     |
|      |                                                                           | will be freely available to any scientist wishing|
|      |                                                                           | to use them for non-commercial purposes, without|
|      |                                                                           | breaching participant confidentiality.            |
| 4    | Any other documents will be share? Such as study protocol,               | None                                            |
|      | statistical analysis plan, informed consent form, clinical study report, |                                                   |
|      | analytic code.                                                           |                                                   |
| 5    | When will data availability begin?                                       | From the publication date.                      |
| 6    | When will data availability end?                                         | Three years within the publication date          |
| 7    | To whom will you share the data?                                         | Who are interested about to discuss the antifungal|
|      |                                                                           | resistance, virulence and inflammatory factors’  |
|      |                                                                           | changes after the infection of larvae of Aspergil-|
|      |                                                                           | lus separated from patients with chronic         |
|      |                                                                           | obstructive pulmonary disease.                   |
| 8    | For what type of analysis or purpose?                                    | For to discuss the antifungal resistance, virul-  |
|      |                                                                           | ence and inflammatory factors’ changes after the|
