Supplementary Figure 1: RSCU of the mitochondrial genome of four subfamilies of Pentatomidae.

Supplementary Figure 2: RSCU of the mitochondrial genome of three species of the Phyllocephalini.
Supplementary Figure 3: The phylogenetic tree of Pentatomidae was constructed from DNA sequences of 13 PCGs using ML method. Numbers on branches are bootstrap (BS).

Supplementary Figure 4: The phylogenetic tree of Pentatomidae was constructed from DNA sequences of 13 PCGs excluding the third site by ML method. Numbers on branches are bootstrap (BS).
