MSDWild

License agreement

The X-LANCE Laboratory of the Department of Computer Science and Engineering, Shanghai Jiao Tong University makes the MSDWild available to the scientific community. The database serves as a resource for researching novel methods and multi-modal speaker diarization algorithms. The video's original creator is the sole owner of the copyright. Upon signing this form, the data is made available for research purposes. The requestor accepts these conditions:

• <u>Research only</u> : The database is solely made available for research use; data cannot be used for any commercial purpose.

• <u>Redistribution</u> : The database will not be distributed, full or in part, to any third party.

• <u>Publication</u> : Only illustrative uses of the data are permitted in scientific papers.

• <u>Citation</u> : Each publication on research that makes use of the database must include citations.
