Skills

Languages: JavaScript, TypeScript, Java, Python

Developer Tools: VS Code, github, google colab, postman, huggingFace, sublime, Spline3D

Technologies/Frameworks: Linux, GitHub, ReactJS, Redux, React query, NextJS, NodeJS, ExpressJS, Git, MongoDB, SQL, Bootstrap, TailwindCSS, SASS, styledComponents, DaisyUI

Experience

Clusterize Learning (Backend, Prompt Engineer Intern)

12 2023 - 02 2024 - Mumbai, India

During my internship, I managed backend and prompt engineering tasks. I built a secure backend using Node.js with encrypted authentication for user data security. Additionally, I tuned LLama2, Meta's open-source LLM for coding concepts, particularly for 9th and 10th-grade students learning Java programming

React website for a college committee, IEI (Contribution)

12 2023 - 02 2024 - Mumbai, India

Developed a website using ReactJS to showcase IEI TCET, a professional body in Thakur college of engineering. It showcases IEI's aims, members, student attendance and more..

Projects

Chat App (MERN, socket.io)

A realtime chat app with beautiful UI having 3D elements. Uses socket.io for realtime communication. Uses JWT based authentication for security.

Tour Bank (ReactJS, ResfulAPI)

A website to track your adventures across the globe. It is your online portfolio of the places you visited. Uses react-leaflet library to handle maps

Music App (HTML, CSS, Javascript)

An aesthetic website which can be used to play songs, access playlists and make donations via UPI..
