Dr .Hadeer Ahmed :

As a dedicated and innovative Teaching Assistant Professor in Computer Engineering, I bring a passion for education and a deep understanding of cutting-edge technologies to the classroom. With a strong academic background and extensive hands-on experience, I strive to inspire and equip students with the skills necessary to thrive in a rapidly evolving tech landscape.

My expertise spans a broad range of areas including computer architecture, embedded systems, software engineering, and AI. I am committed to fostering a collaborative and inclusive learning environment where students are encouraged to think critically and solve complex problems. By integrating theoretical knowledge with practical applications, I help students bridge the gap between academia and industry.

In addition to my teaching responsibilities, I am actively involved in research and development projects that push the boundaries of current technology. My work has been published in several prestigious journals and conferences, and I continually seek opportunities to contribute to the field of computer engineering through innovative research.

DR . Hadeer is also Lin-K-lt Supervisor
